

Requirements for Filing Trademark Applications in Israel

Documents Required:

Specification of goods

List of goods to be covered in each separate class. Israel requires that a separate application be filed for each different class. If possible, please also send an electronic version of the specification of goods by e-mail.

Representations:

For word marks and black-and-white devices the representations are normally prepared by us at no extra cost, but a clean xerox copy of device marks must be supplied by the client

For devices in color, .jpeg files should be sent electronically via e-mail (otherwise, 4 representations of the mark should be supplied for each class filed).

Power of Attorney:

Needs not be legalized. The P.o.A. filed on behalf of a corporate body should indicate the name and position of the person signing it.

Priority Documents:

A certified copy of the priority application as filed is needed. If the language of the original application is other than English, a certified English translation thereof must also be provided, which should be sworn by the translator (no legalization needed).

Terms for Filing Documents (all extendible upon payment of fees):

Representations of the mark:

With the application. Better copies can be submitted later (if, for instance, the representation is received by telefax)

Power of Attorney:

3 months from the filing date of the Israeli application

Priority Document:

3 month from the filing date of the Israeli application

Sworn Translation of Priority Document:

Together with Priority Documents
