

Company Name	Website	Description of activity	Product Detailed Description	What are the most common applications of your company's production?
AB ANALITICA	www.abanalitica.it	Production of Medical Devices	Real - time products for diagnostic in vitro	Medical devices for diagnostic laboratories
AGMAARREDO INOX PROFESSIONALE S.R.L	www.agma.it	Stainless steel furniture for the healthcare, industrial, catering and residential sectors	Stainless steel furniture	Sterilization rooms, prep rooms, operating theatres
ARTIGLASS SRL	www.artiglass.it	Glass syringes manufacturer	Glass syringes	Epidural anesthesia - pain management trays
ATENA LUX SRL	www.atenalux.com	Manufacturer of lighting fittings and bedhead units for hospital and nursing homes	Bedhead units for medical premises of group 0,1 and 2	Hospital patient's room, surgery room, intensive care unit - special versions also for nursing homes
BENEDETTI & CO. BIOSOLUTIONS SRL	www.xeptagen.com	1. IVD, New Molecular Biomarkers for the diagnosis, monitoring and screening of cancer cells (HEPA-IC and iXip). 2. Innovative Medical Devices class I and class II based on ozonized stabilized oil (Ozolipoile) - (Amioil gel; Amioil Patch; Fisionerv gel; VO3 Active spray).	Medical Devices and IVD	IVD Oncology, Urology, Epathology - MD Orthopedics, Physiatry, Rheumatology
BIOCOMPATIBILITY INNOVATION	https://www.biocompatibility.bio/	Biocompatibility innovation operate in the field of biotechnology with the goal of developing technologies to improve the biocompatibility of medical devices	Implantable medical devices	Heart valve bioprosthesis

BMR GENOMICS SRL	www.bmr-genomics.it	Sequencing service provider	DNA test for human microbiome analysis, DNA test for human food intolerances, sports performance, oxidative stress	Sequencing service providers for Research Centers and Universities. Kit manufacturers useful for wellness studies. Human Microbiome testing: for DNA analysis of dysbiosis, predisposition to certain diseases, prediction of metabolic functions. Human DNA testing: identifies mutations that correlate with food intolerances, metabolism, sports performance, oxidative stress.
BTS SPA	www.btsbioengineering.com	Medical Devices for Motion Analysis	Devices for the motion analysis in rehabilitation	Rahabilitation
CALZOLAIO ANTONIO RIGATO	www.rigatosumisura.com	Bespoke and orthopedic custom-made footwear manufacturing	Bespoke and orthopedic custom-made footwear	Diabetes footwear, High personalization of footwear due to severe malformations
CBS Medical SRL	www.cbsmedical.eu	We are manufacturer of disposable sticky mats, permanent mats and absorbent floor mats	Disposable sticky mats, permanent mats and absorbent floor mats	Our products are used in the hospital/medical sector, food/cosmetic/pharmaceutical industry
CENTREL S.R.L. - Società Unipersonale	www.centrel.com	Production and commercialization of diagnostic medical devices for gynecology	Colposcopes and video endoscopy systems	Gynecological diagnostic investigations: colposcopy and video endoscopy

CFS ITALIA SRL	www.cfsitalia.com	Produzione e commercio di arredi e attrezzature in genere per ospedali, cliniche e strutture sanitarie. Realizzazione di progetti chiavi in mano sia nel settore ospedaliero che nel settore case di riposo, RSA e comunità.	Stretchers and furniture for specialist clinics - stretchers and furnishing for specialist consulting rooms, modular technical systems and medical trolleys - modular technical systems and medical trolleys, furniture in general for facilities for the elderly	Both public and private hospitals, medical offices, clinics, residences and facilities for the elderly
CLARISCIENCE SRL	www.clariscience.com	Clariscience provides Scientific Communication services and assistance to achieve Regulatory and Quality compliance.	Advice	Clariscience provides Scientific Communication services and assistance to achieve Regulatory and Quality compliance.
DABO HTS 4.0 SRL	www.daboihts.eu	Devices for sanitizing air, water and surfaces.	Main device for sanitizing the surfaces most touched by people such as push-button panels, touch monitors, automatic tills	Safely touch push-button panels and automatic tills, or lift push-button panels

D-Air Lab SRL	www.dairla.com	D-Air lab is the technological spinoff of the Dainese group which develops airbag technologies and many others in new fields of application, different from those in which Dainese operates (motorcycles, bicycles and ski equipment). D-Air is the intelligent airbag conceived, patented and developed by Dainese capable of detecting a fall thanks to sensors installed in the garment and inflating a special bag that effectively protects the wearer.	Airbag designed to protect the elderly and people with mobility difficulties in the event of a fall.	The product is worn like a belt which contains the airbag inside which is activated in the event of a fall. It is used both by individuals and in facilities to assist patients at risk of falling during rehabilitation, often post hip surgery.
EB NEURO SPA	www.ebneuro.com	Manufacturer	Modular technical systems and medical trolleys - modular technical systems and medical trolleys, medical equipment for neurology	EEG, EMG, TMS, SLEEP
ESAMED SRL	www.esamed.it	Laboratory diagnostics	Laboratory diagnostics	1
EUMACO SRL	www.eumaco.it	Trade in biomedical devices for telemedicine	Telehealth products	Telecardiologia, telemonitoraggio multiparametrico, teleriabilitazione e gestione CIED
F/ART	www.fart-neon.com/ - https://f-arya.it/	Design and Production of Air & Surfaces Sanitisation devices and components	Devices and components for sanitising air and surfaces with Non Thermal Plasma and Ozone technologies.	Medical clinics, dental clinics, waiting rooms, offices, veterinary practices, hotels

FAVERO HEALTH PROJECTS SPA	www.favero.it/	Managment and export	Hospital beds pediatric beds - hospital beds, pediatric beds and equipment, stretchers and furnishings for specialist outpatient clinics - stretchers and furnishing for specialist consulting rooms, modular technical systems and medical trolleys - modular technical systems and medical trolleys	Hospital and clinic
GABEL S.r.l.	www.gabel.it	Poles med is the digital tool certified as a class 1 medical device to support rehabilitative and rehabilitation programs and to monitor motor progress. and poles med today supports healthcare professionals in the A.F.A., rehabilitation and health promotion fields, in the therapeutic assistance pathways for sensitive exercise pathologies in the orthopedic, neurological, cardiological, metabolic and oncological fields.	Class 1 medical device	Balance improvement, re-educational assisted walking, recovery from after-effects of pathologies, post-surgical rehabilitation, neurological and orthopedic rehabilitation
GARDA LASER S.N.C.	www.gardalaser.it	Design, manufacture, assembly, installatio and technical assistance of laser devices and accessories for biomedical, eletromedical, eletrical and opical and equipment	Dispositivi laser	Design, production, technical assistance
GEVA SRL	www.gevaonline.com	Industrial automation	Pill dispenser	Automation

GIVAS SRL	www.givas.it	Production of hospital furniture and rest homes	letti degenza letti pediatrici - hospital beds, pediatric beds and equipment, barelle e arredi per ambulatori specialistici - stretchers and furnishing for specialist consulting rooms	Hospita stay, clinics, examination room
HIDEW SRL	www.hidew.it	Air treatment and sanitization systems (temperature, humidity, air quality, dust, organic pollutants) in confined spaces for hospitality (hospitals, wards, offices, multipurpose rooms) or industrial (laboratories, clean rooms, production and storage) medicines) or promiscuous	Air treatment systems	Humid environments, industrial environments with controlled temperature and humidity, swimming pools, industrial residential and swimming pools
I.A.C.E.R. SRL	www.itechmedicdivision.com/	Production and distribution of medical devices.	Medical devices for rehabilitation	Rehabilitation and remote rehabilitation with home medical devices of magnetotherapy, pressotherapy, diathermy, electrotherapy, electromyography, laser therapy, ultrasound therapy and diagnostic devices.
MANUFACTURING ENGINEERING and DEVELOPMENT MED SRL	www.ideamed.it	turn key solutions for high technology healthcare Departments	Health care departments from design to turn key (we provide technical plants, walls, ceilings, equipment...),	High technology healthcare departments: ICU, operating theatres, sterilization units....
MARGI PLAST S.R.L.	www.margiplast.it	Injection molding (components) of thermoplastic material	Components	aesthetic components - high performance polymers
MD SRL	www.md-srl.it	Manufacturer of medical gas equipment	Central units for hospital gas distribution and accessories for oxygen therapy and suction	Hospitals

MECCANICA FRANCHIN SNC	www.meccanicafranchin.it	Turning, laser cutting, sheet metal stamping	Turned, stamped or laser cut components	all sectors
MEDICAIR FACTORY SRL	www.servicemed.it	Contacts with foreign customers, tenders, orders	Anti-decubitus systems	Homecare, hospital, RSA
MONDIAL S.n.c. di Cavinato A.& C.	www.mondialprod.it	Production of disinfectants, dermohygienic products, detergents, fine chemical products	Disinfectants	Disinfectants for medical devices, for civil use, for veterinary use and for food use, histology preservatives.
NANOPHOENIX SRL	www.nanophoenix.com	Research, development and marketing of electromedical devices (including stocked parts and accessories)	Substrates for cell cultures, microfluidic devices and lab-on-chips, micro and nano electrodes & biosensor	Among the different solutions that the company is able to develop, the three verticals in which it is specialized are Substrates for cell cultures (cell morphology analysis, biomechanical analysis, co-culture development, standardization of cell cultures, organs-on-chips, etc.), Microfluidic and lab-on-chip devices (analysis of biological fluids in the therapeutic and diagnostic fields such as liquid biopsy) and Micro and nanoelectrodes and biosensors (biological samples analysis in the human, animal, and agri-food fields, therapeutic monitoring, etc.).
NEOGEN srl	www.neogenpharma.eu	Research, development and production innovative products with thermal water	Medical device with thermal water for colds and rhinitis. For daily nasal hygiene in children and adults	For colds and rhinitis. For daily nasal hygiene in children and adults

OPERAMED SRL	www.operamed.com	Sales management and Business Development	Design and installation of hospital critical areas (operating rooms, ICU, patient wards) with prefabricated modular partitions	Building and renovation of Operating Rooms, ICUs, Hybrid Operating rooms, patient wards
ORAIGO SRL	www.oraigo.com	A brain computer interface against falling asleep at the wheel	brain computer interface to collect eeg	<p>Oraigo has developed a cutting-edge product that utilizes artificial intelligence and electroencephalogram (EEG) analysis to detect drowsiness and driver's microsleep episodes. The app also records the driver's reaction times and, in the event of no response, activates a multi-channel alarm system: auditory notifications, visual alerts, and intense vibrations. Oraigo's main objective is to prevent drowsiness-related road accidents by promptly detecting the driver's vigilance level and implementing appropriate preventive measures. If these measures prove insufficient, it not only alerts the driver about their condition but also intervenes. Through EEG analysis and a comprehensive alarm system, Oraigo enhances road safety and protects both drivers and passengers.</p>
ORTHOMEDICA SRL	www.orthomedica.it	Production of orthopedic articles	Orthopedic prostheses	Corsets for scoliosis and orthopedic prostheses

PHYTO PERFORMANCE ITALIA SRL	www.phytoperformance.com	Manufacture and wholesale first aid products and items for athletes' wellbeing	Instant cold pack, cold spray, reusable gel pad, creams and oils for massage	Instant cold pack, cold spray, reusable gel pad, creams and oils for massage
PIAI ORTOTECH SRL	www.piaiortotech.it	Production of orthopedic aids in general	Stretchers and furniture for specialist clinics - stretchers and furnishing for specialist consulting rooms, medical armchairs, multifunctional high chairs, wheelchairs, walkers, etc.	Products for the elderly and disabled
PLAY CAST SRL	www.playcast.it	Innovative measurement scanning solutions for personalized applications	Fixed assets 3D printed from 3D scanning	3D printed orthosis and prosthesis for humans and vets, measurement solutions
PRO-ACTIVE SRL	www.proactivesrl.it/proactive/Home.htm	Production and selling of plastic medical devices of which infusion sets, transfusion sets, extension lines and accessories.	Plastic medical devices of which infusion sets, transfusion sets, extension lines and accessories.	Our products are addressed to hospitals/clinics.
PROMETEO SRL	www.quecphysis.com	Production and trade of medical devices	ELF wave magnetotherapy therapeutic device	well-being - sports - musculoskeletal - third age diseases
RESONO OPHTHALMIC	www.resono.it	Manufacturing and sale of devices	Electrotherapy devices in ophthalmology	Electrotherapy for ocular surface diseases
SENSOSAN SB SLR	www.sensosan.it	Sensosan offer unique AI Platform with Air Nebulizers and Air Fluid pods where our customers can choose the air in indoor environments same with Nespresso they choose a coffee.	S1 Air Nebulizer and Air Fluid Pods	n/a
SILPLAST SRL	www.silplastsrl.it	Design and manufacturing of dialysis components	Dialysis components	Dialysis

STERTEC SRL	www.stertec.com	Innovative Medical equipment controlling air contamination	Mobile laminar hood	Generating under the hood a micro-environment with controlled contamination in case of low-complexity surgery
TAO TECHNOLOGIES Srls	www.taopatch.com	<p>Tao Technologies is an Italian company specialized in the production of innovative nanotechnologies for the treatment of movement disorders and the improvement of the body's proprioception. It was founded in 2012 by Dr. Fabio Fontana in collaboration with likeminded people, involved in the creation, diffusion and development of Taopatch®, a Class I medical device. This revolutionary technology emits wavelengths of therapeutic light, which improves the communication between the central nervous system and the body's receptors without releasing chemicals or side effects. With millions of devices sold and thousands of Taopatch® certified healthcare professionals, Tao Technologies is the leading company of biophysics applied to medicine. For more info, go to www.taopatch.com</p>	<p>Taopatch® is a certified medical device of Class I CE. It has been the subject of numerous research and scientific studies, published on international journals and included in the world's biggest medical databases, which have demonstrated its effectiveness. It is a portable mini laser that acts on the proprioceptive and postural level without releasing chemicals or side effects. It can help improve the communication between the central nervous system and peripheral receptors, optimizing both the body's physical and biological performance. Taopatch® is activated by the body heat and sunlight. It is made of layers of nanocrystals that convert the body heat into photons similar to those used by the cells to communicate with each other, providing the energy the body needs to remain stable, balanced and healthy. It is applied to the skin with adhesive tape. It lasts 2</p>	<p>Taopatch®, through the emission of wavelengths of therapeutic light, can improve the internal communication of the body, solving many problems at the origin and alleviating the symptoms definitively. The nanotechnological device is used in many medical fields, including posturology, physiotherapy, neurology, dentistry, and otolaryngology. Taopatch® is also considered an effective biohacking technique that helps to stay healthy and prevent the most common disorders caused by a sedentary lifestyle.</p>

TELEA MEDICAL	www.teleamedical.com	Manufacturer of Medical Devices for Surgery, Physiotherapy and Aesthetic Medicine	Electrosurgical equipment, physiotherapy devices	ENT, Neurosurgery, Physiotherapy, sport medicine, rehabilitation
UBGEN	www.ubgen.com	Manufacturer of medical devices for bone regeneration in dentistry	Bovine bone substitute, bovine pericardial membranes, blood component separator, titanium mesh, hyaluronic acid	Bone regeneration in dentistry
VACUTEST KIMA SRL	www.vacutestkima.it	Manufacture and sale of blood / urine collection vacuum tubes and relative devices, microbiology products, disposable plastic labware	Vacuum tubes for blood collection and accessories	Use in medical laboratories and hospitals
VASSILLI SRL	www.vassilli.it	Design, production and assistance of wheelchairs, aids and rehabilitation equipment for disabled people.	Stretchers and furniture for specialist outpatient clinics - stretchers and furnishing for specialist consulting rooms, manual and electric wheelchairs, lifters, walkers	Manual and electric wheelchairs, hoists, walkers and beds
YEAH GROUP SRL (YOWALK)	www.yowalk.it	Production and marketing of medical devices	Carpet for progressive plantar reactivation	medical device manufacturing
