# WARSAW BUILD 2013

Warsaw International **Building Materials & Equipment** Exhibition

LENTEWENC

# Warsaw BUILD 2013

Warsaw BUILD 2013 is a **professional trade fair** that helps to promote producers and suppliers of the building industry. The exhibition is a **great opportunity** to compare products, services and meet their manufacturers.

The show features a **wide range of products**, from construction tools and building materials to equipment and technologies.

## Why Warsaw

### DECISION CENTRE

Warsaw is a business centre where all decision-makers of the international companies and institutions come to gather and talk

### BUSINESS FOCUSED

Warsaw combines foreign investors with local entrepreneurs: 8 159 new companies have started their business in Warsaw only in 2012

### PERFECTLY PLACED

Situated in the heart of Poland and centre of Europe Warsaw links business markets of Europe and Asia

### THE LARGEST MARKET

With a population of 2,8 million inhabitants Warsaw creates an unlimited market with countless business opportunities

### CITY OF LEADERS

Warsaw as a dynamic and fast developing city attracts young and talented people who push the economy forward

- Roofing Materials and Technologies

## FACTS & FIGURES

- In 2011 the value of the construction market in Poland was estimated to around **PLN 190 billion**
- With total resources of 3,6 million sq. meters of office space Warsaw is now **the largest market and construction site** in the country
- Warsaw has **the second place** in Europe in terms of newly constructed office space that creates an unlimited demand for the building sector
- The total amount of investments in Warsaw in 2010-2014 will reach the record number of **PLN 12 billion**, the main part of this amount will be deployed in the construction sector
- The highest share (56.8%) in the new housing stock increase was accounted for private investors that results in **a huge demand** for building materials, tools and equipment
- 46 459 dwellings were completed (25,7% more than in 2011) in January-April 2012 that causes the demand for building materials in Poland
