SOITRON: Soitron developed a system for intelligent police cars. Developer of IT solutions from integrated communication systems to mobile police units.
Inside ICT Market in Slovakia

The majority of IT services in Slovakia are provided by outsourcing centers and software houses. From the prospective of IT customers, the largest share of the segment is represented by the public sector.

DIVERSIFICATION OF TELECOMMUNICATION SEGMENT
Traditional activities of telecommunication operators are gradually expanding beyond mere provision of telecommunication services. Building a diversified portfolio enriched by internet sale or IT services, such as data centers or software houses, is becoming an integrated part of their business.

**ICT Supporting Platforms**

**ITAS**
- headquartered in Bratislava
- established in 1999
- Slovak association of 90 ICT companies representing about 80% of the Slovak IT market
- members employ more than 25,000 people
- Association of 90 companies

**KOŠICE IT VALLEY**
- headquartered in Košice
- established in 2007
- Slovak association of 56 members and sympathizers, including private, public, and academic sector

Activities of Košice IT Valley are carried out in the Eastern Slovakia:
- over the years focus on education stays as one of the priorities, but scope of the cluster itself has gone beyond
- innovations, research & development, support of collaboration within the cluster and support of investments become an integral part of the cluster

**ZAICT**
- headquartered in Žilina
- established in 2008
- Slovak association of 12 members including private, public, and academic sector

ZAICT activities are mainly in Žilina region at:
- interconnection of private sector and R&D institutions
- supporting lectures of ICT companies at secondary schools
- offering educational programs and organizing school camps for raising IT skills

---

ITAS runs several projects including:
- Digital transformation — interlinking ICT sector with other Slovak industries
- Support of educational initiatives at all levels — from academic programs to requalification
- IT Testing — verification of IT skills among population in Slovakia
Investment Incentives

The primary role of the investment incentives is to motivate investors to place their new projects in regions with higher level of unemployment. The positive impact of a new investment shall be proved by jobs creation, improved chances for graduates to get a job, as well as by creation of new entrepreneurial opportunities for local companies.

MAXIMAL REGIONAL INTENSITIES OF INVESTMENT AID IN SLOVAKIA

ELIGIBLE PROJECTS

The Act on Investment Aid divides the projects which may be supported into four categories:
