 **COSMOFARMA**
EXHIBITION
APRIL 12 - 14, 2019

Sergio Dompè

President of Pharmintech Exhibition

Today more than ever, **quality** is among those processes that need to be shared, just as **research** and **innovation** are the result of **open knowledge** to which each operator contributes. It's clear that this approach guarantees and will continue to guarantee **competitiveness** within the system as a whole.

An Italian system that continues to demonstrate its capacity **to adapt to new competitive scenarios**, leading to innovation and offering **first-class research**. Our **supply chain** is one that Pharmintech is able to represent and introduce to **internationally renowned Pharma players** on a prestigious stage, with a spotlight on **excellence**.

IT'S THE INTERNATIONAL MEETING POINT FOR THE LIFE SCIENCE INDUSTRIES, SUCH AS PHARMACEUTICAL, PARAPHARMACEUTICAL, NUTRACEUTICAL AND BIOTECH.

THE 6TH EDITION OF THE SHOW WILL BE HELD IN BOLOGNA **FROM 10 TO 12 APRIL 2019.**

When it comes to Life Sciences, product excellence is closely related to suppliers excellence and know-how. The most advanced made-in-Italy technologies as well the most innovative solutions proposed by international manufacturers will be on display in Bologna, which will attract worldwide industry professionals. This is what Pharmintech is about: an event where Life Science industry professionals get together to stay up-to-date while making business.

WHY PHARMINTECH IN ITALY

Because Italy is a benchmark for the entire industry

%

The industry accounts for 18% of the European market value and for 25% of production.

+

In 2010-2017, production has increased by 13%, export by 52% and the productivity index by 19%

%

In 2017, 2,7 billions Euros were spent in R&D and manufacturing technologies.

PHARMINTECH 2019

A special event for the Life Science industry

Pharmintech is a one of a kind event in Italy, as it is the only trade show exclusively dedicated to the entire Life Science industry.

Pharmintech is at the centre of a production chain open to **innovation**, technological progress and **investments**, which are necessary to meet the standards of Industry 4.0. The Life Science industry and its Supply Chain are a long-established excellence in Italy, yet continuing to grow.

THE SUPPLY CHAIN

WHY EXHIBIT

- **To meet industry international decision makers**
- **To measure up to the technical challenges**
proposed by potential new customers
- **To network with the other Life Science industry suppliers**
- **To benefit from the co-located Cosmofarma - April 12 to 14 -**
where leading pharma, nutraceutical and cosmeceutical
brands are exhibiting.
- **To stay up-to-date with market trends thanks to**
seminars, workshops and round tables.
- **To monitor the most advanced releases and previews**
from the industry.
