BARRAGE MIDDLE EAST FZE

Industries

Retail & Consumer goods - We deliver significant improvements in our client's sales growth and profitability. We produce results, not reports. Focus on delivering value and on building our client's capabilities.

Food tech - Innovation across the whole value chain - production, transportation and storage, processing, marketing, distribution, consumption

FinTech - We provide and develop new innovative technologies as alternative to the traditional financial methods. We are focused on improving and automating our client's activities in finance by using new applications, processes, products and business

models. Our goal is to help our clients better manage their financial operations and processes using digital technology.
