

The logo features the word 'RADMIRTECH' in a bold, blue, sans-serif font, centered within a large, circular, stylized blue ring. The ring has a complex, multi-layered appearance with dashed lines and a 3D effect. To the right of the ring, there is a network of blue lines and dots, resembling a circuit board or data flow, extending towards the right edge of the slide.

RADMIRTECH

BUSINESS REVIEW

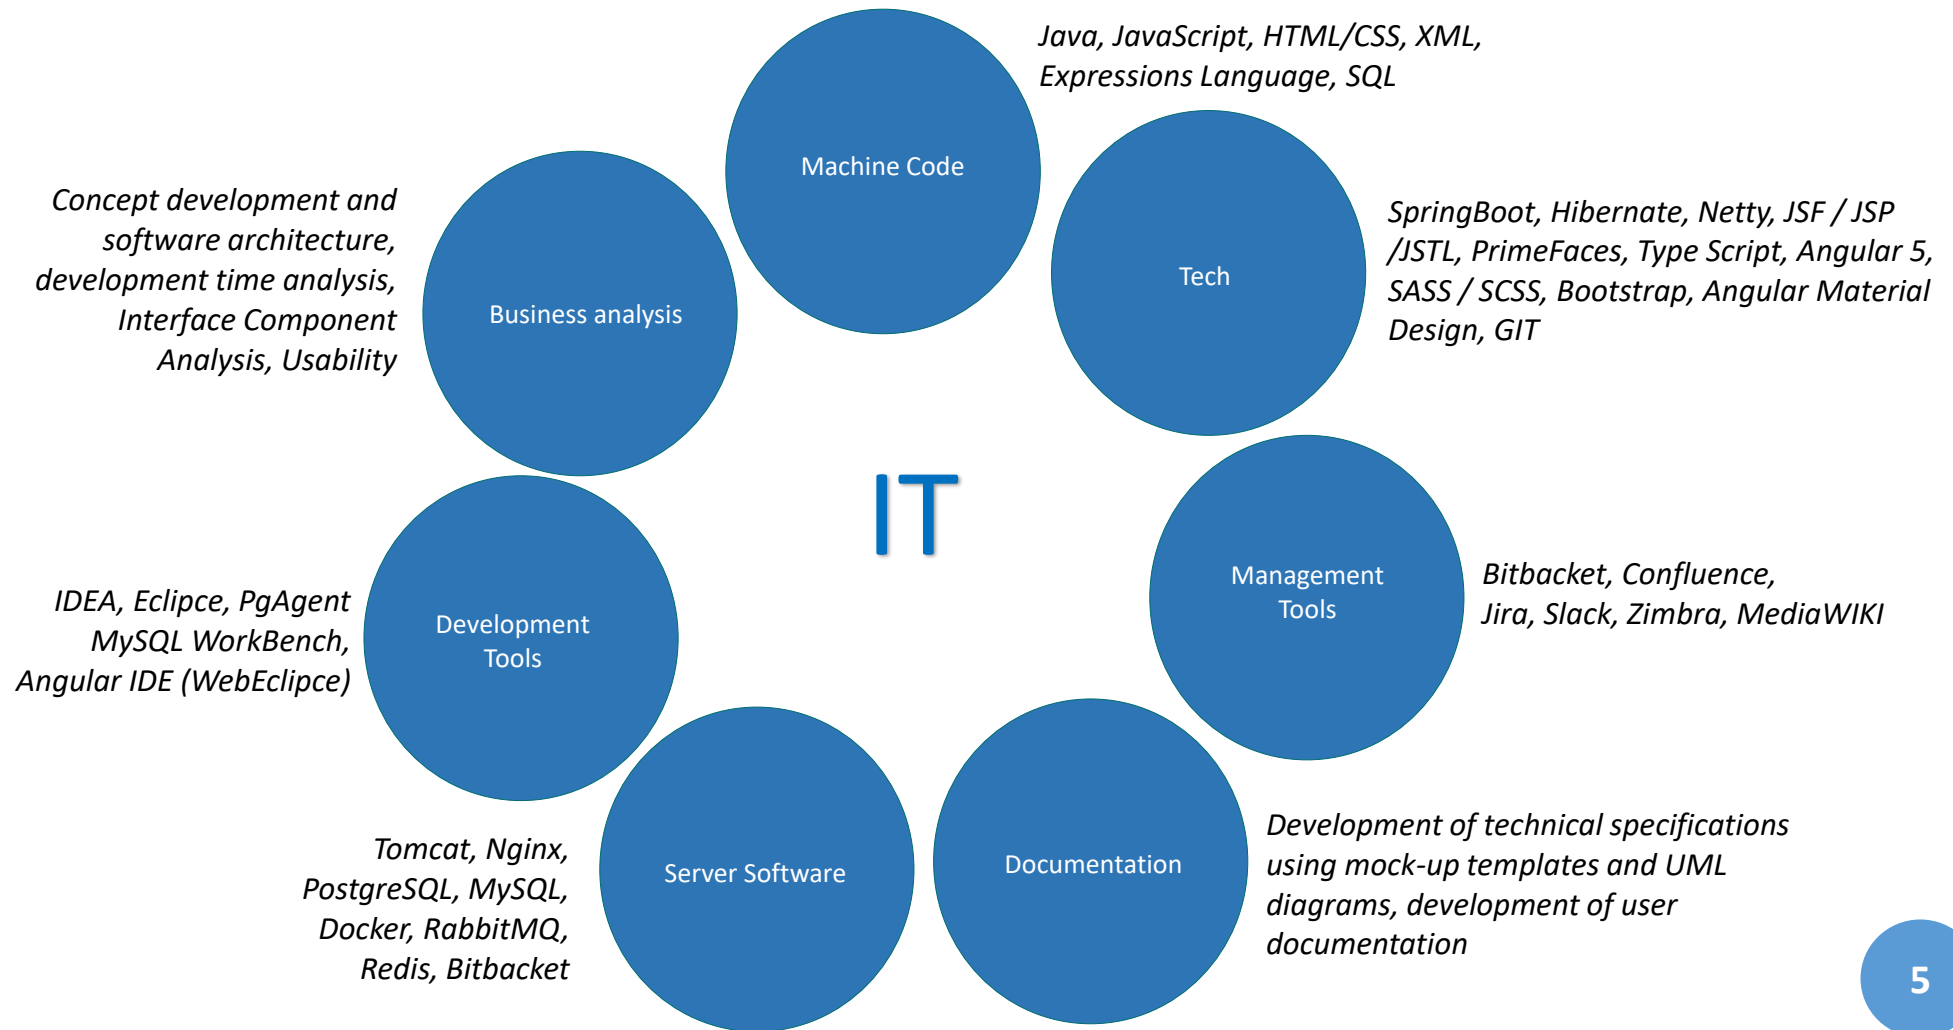

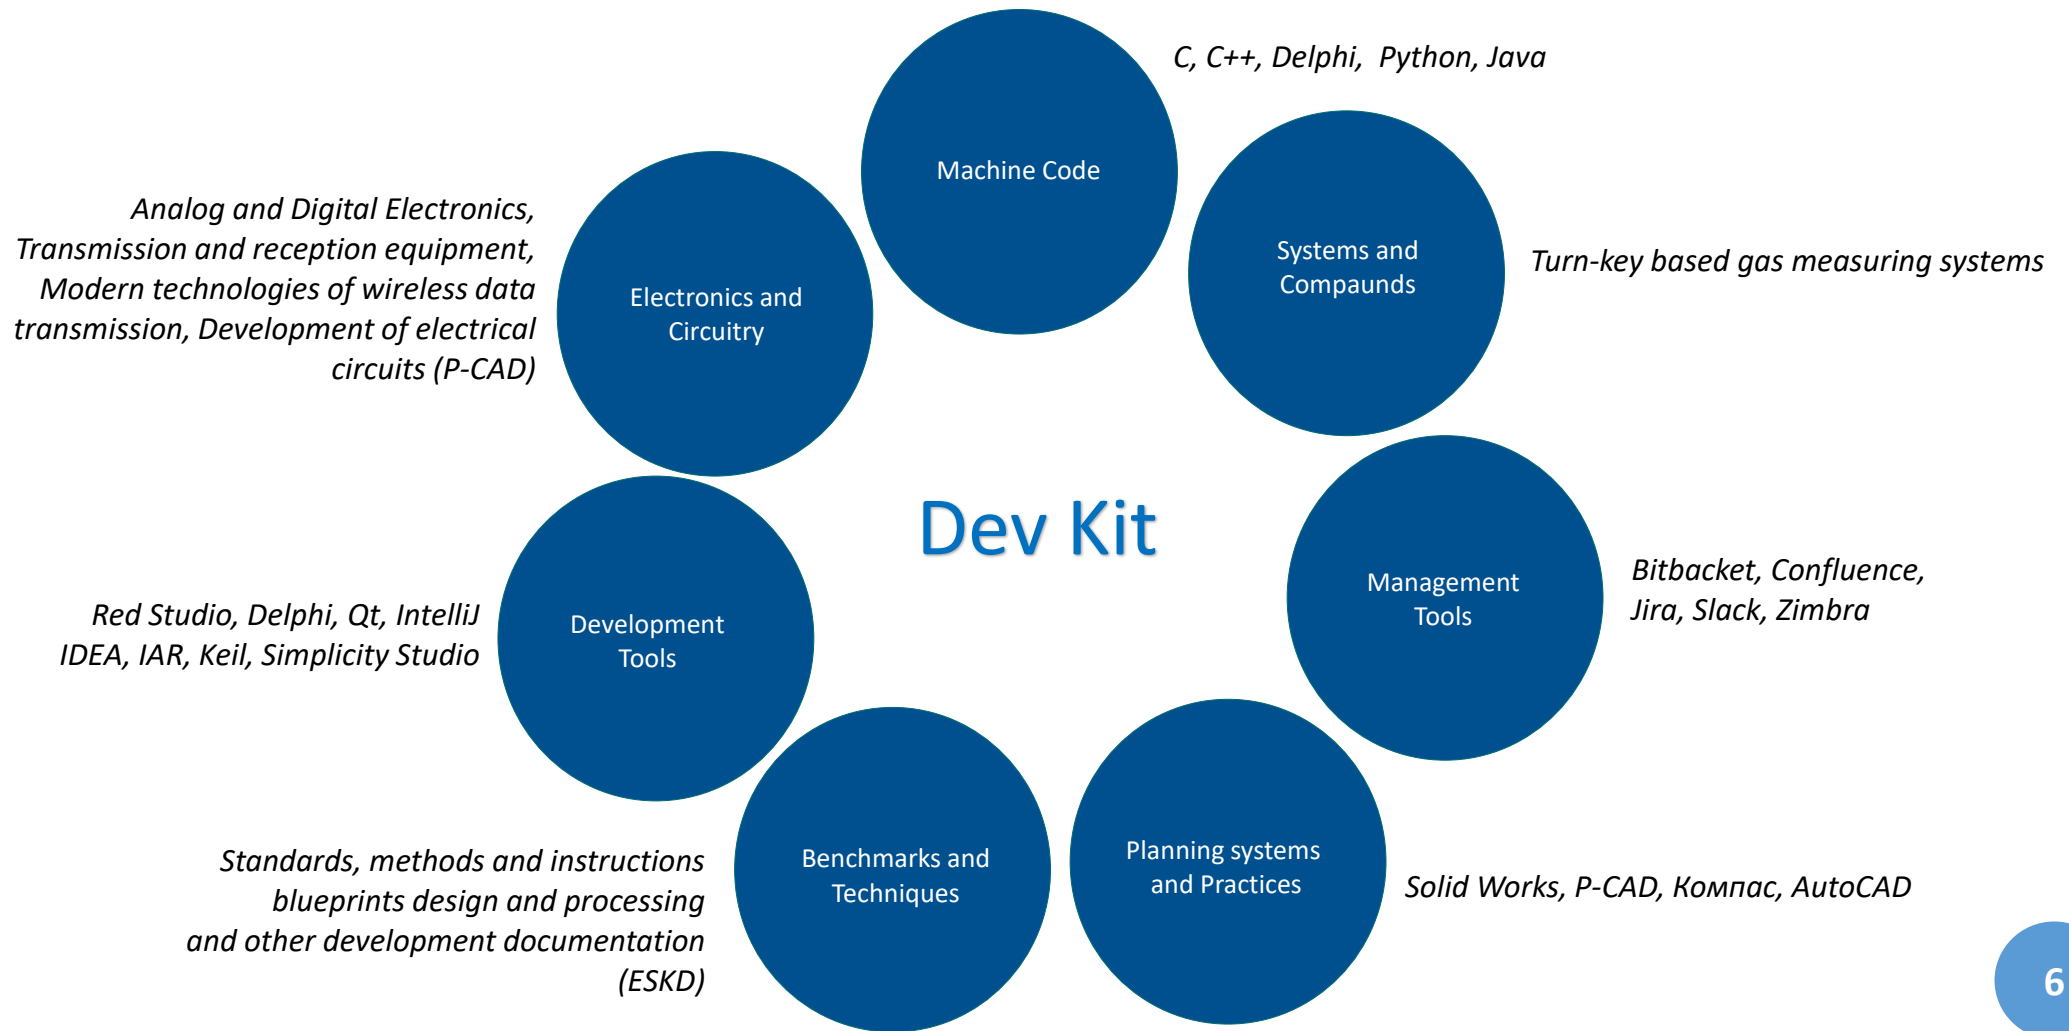

HARDWARE

RADMIRTECH – is a broad-certified manufacturer of a test & measurement equipment.

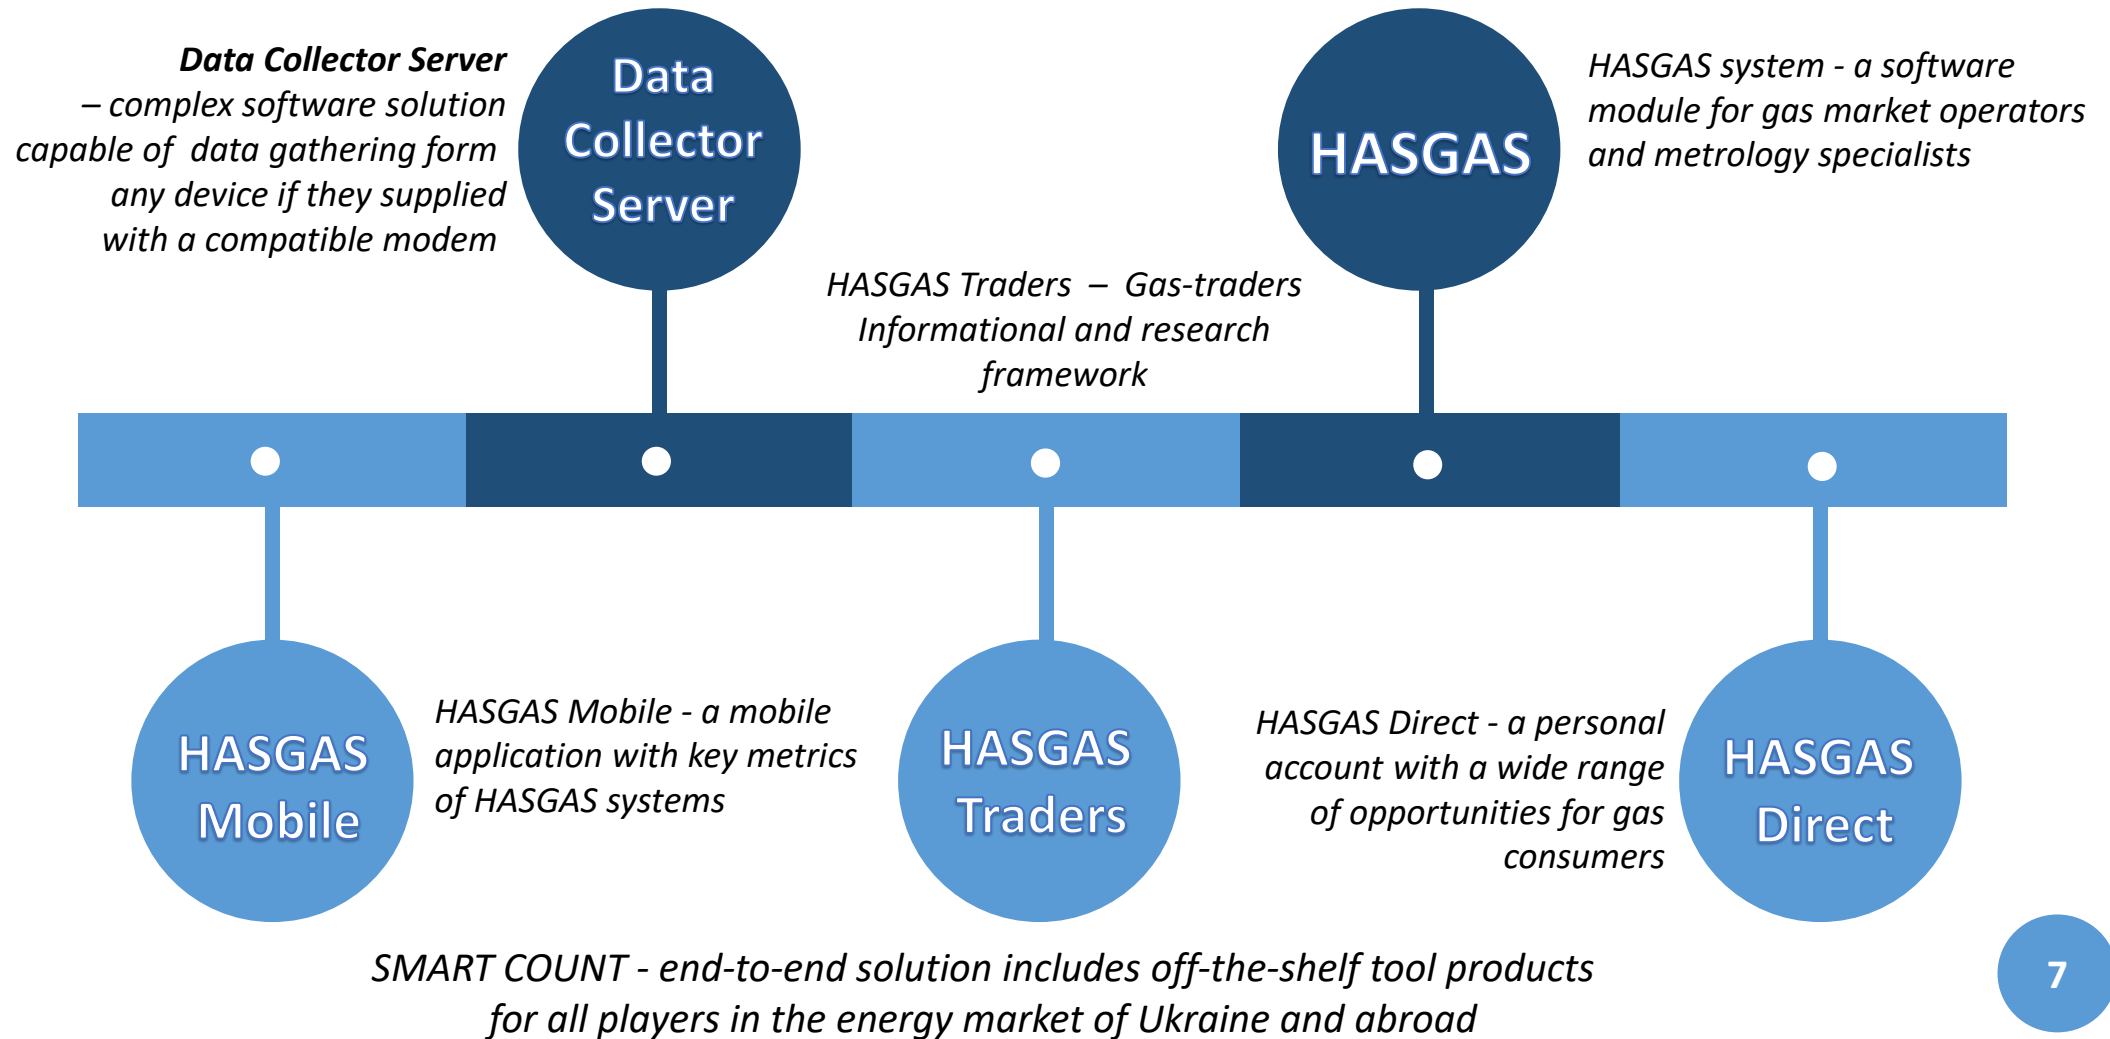

All equipment has metrology match certificates of oversight radio frequencies, waterproof, dust tight, and explosion proof.

SOLUTION

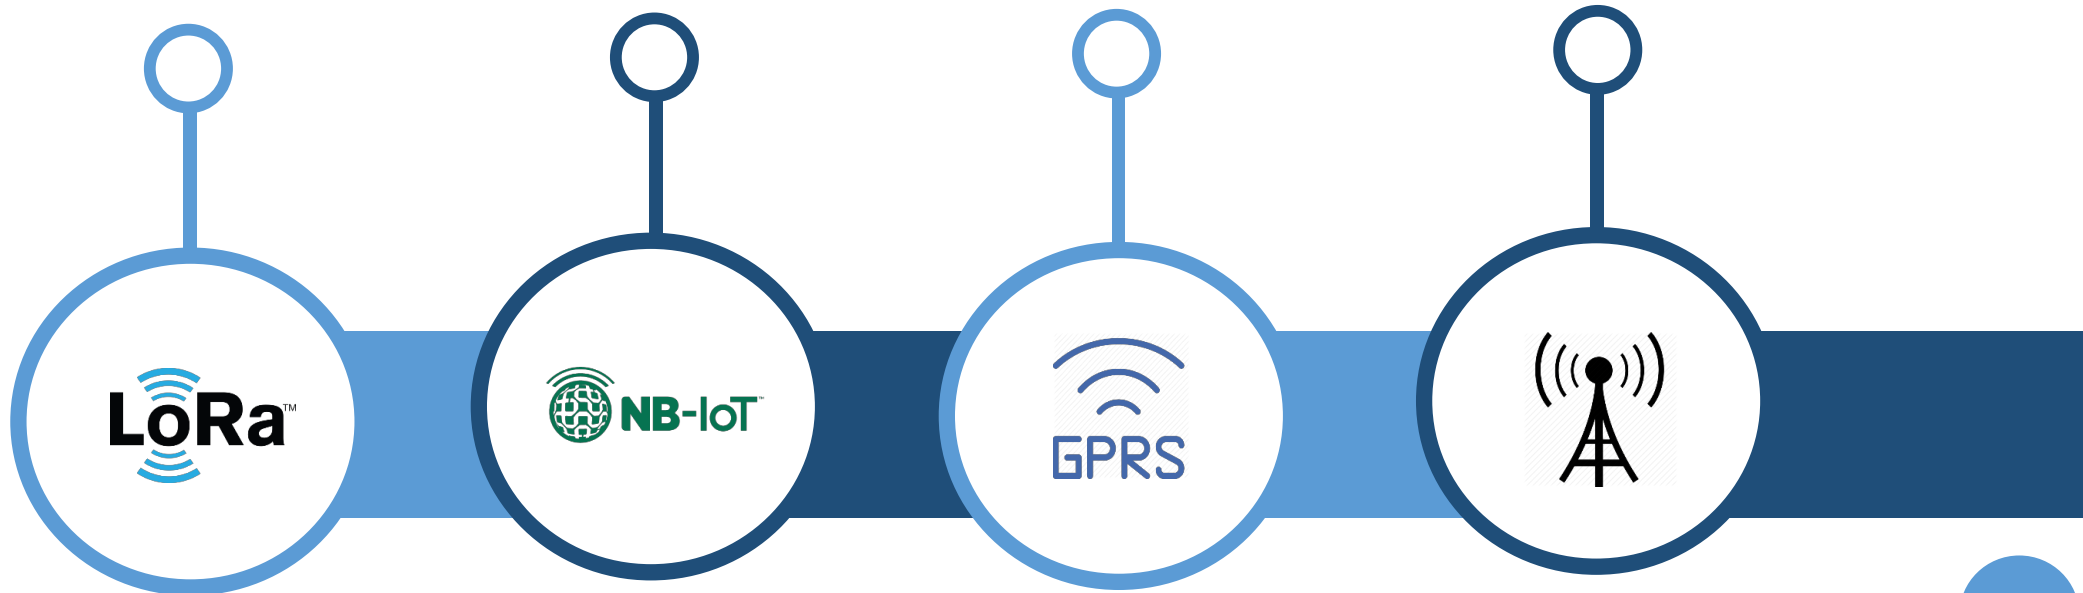

GAS-CONSUMING TECHNOLOGIES

LoRa - wireless technology designed to provide low-speed data exchange for low-cost battery devices

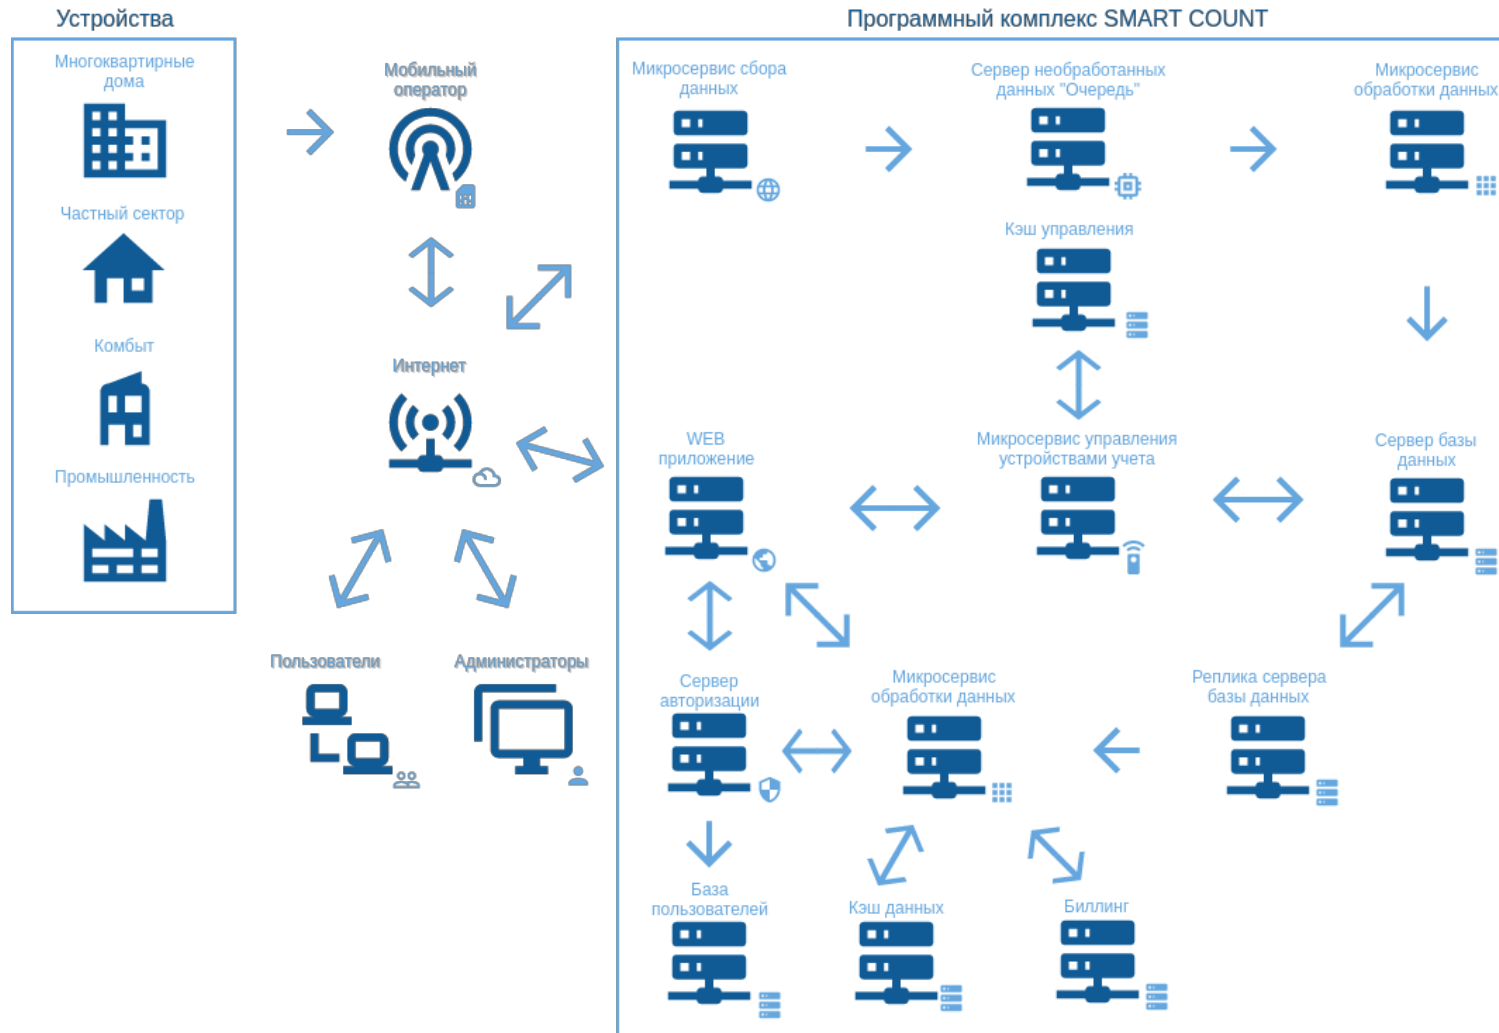

NB-IoT - A Wireless Narrow-Band Variety of Low-Power Wide Area Networks

GPRS allows you to exchange data with other devices in the GSM network, with external networks, including the Internet

Radio communication - data transmission using radio waves

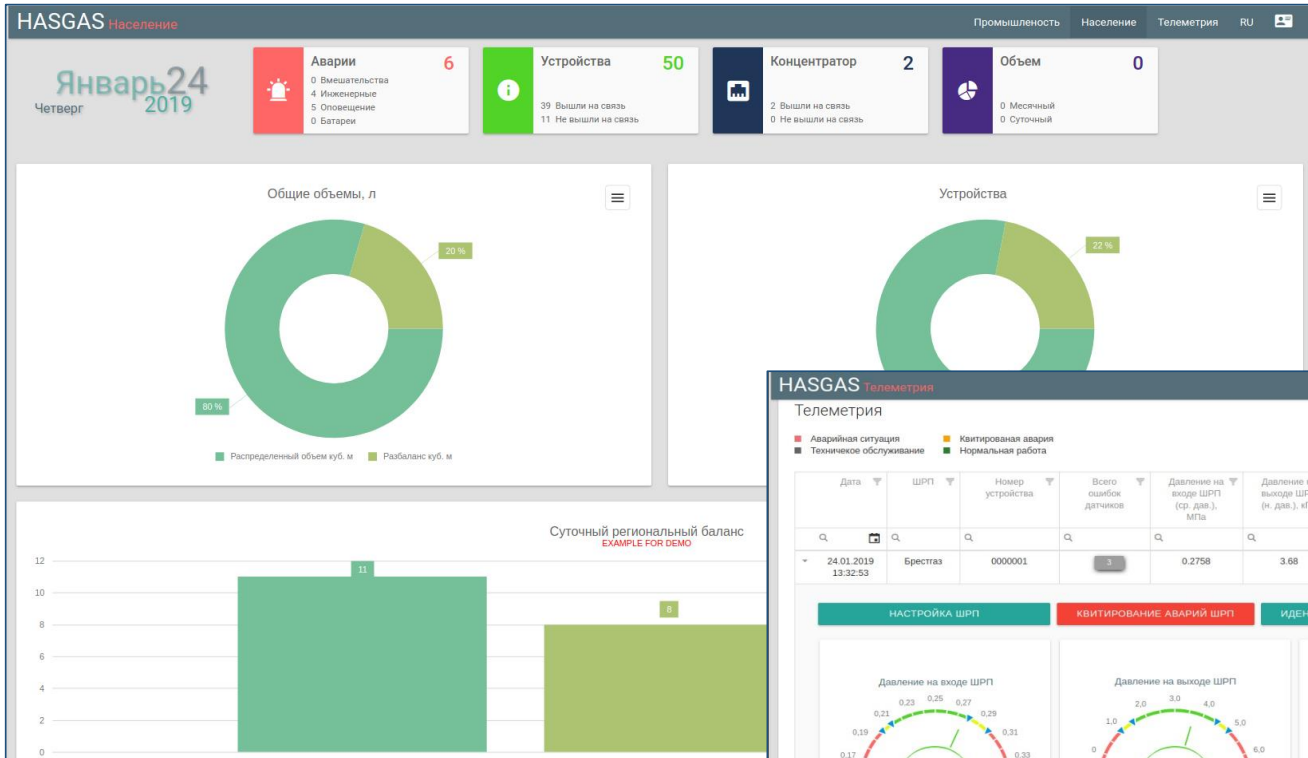

DATA COLLECTOR SERVER

The data collector server includes the gathering, processing, archiving and analysis of data received from mainstreaming devices.

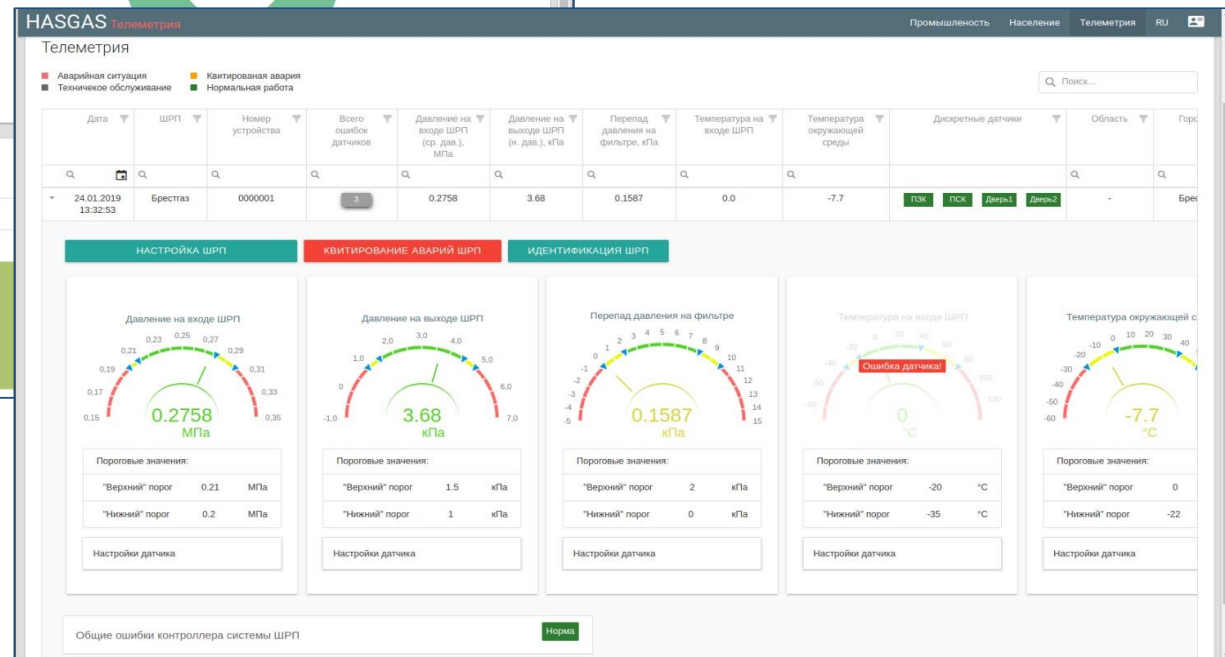

Server is intended to transfer and collect data form any device if they supplied with a compatible modem

ITEM: HASGAS

Designed for managers at all levels, accounting professionals and metrology specialists.

Significantly simplifies work with large data arrays, offering analytics of all types, including graphical.

ITEM: HASGAS Traders

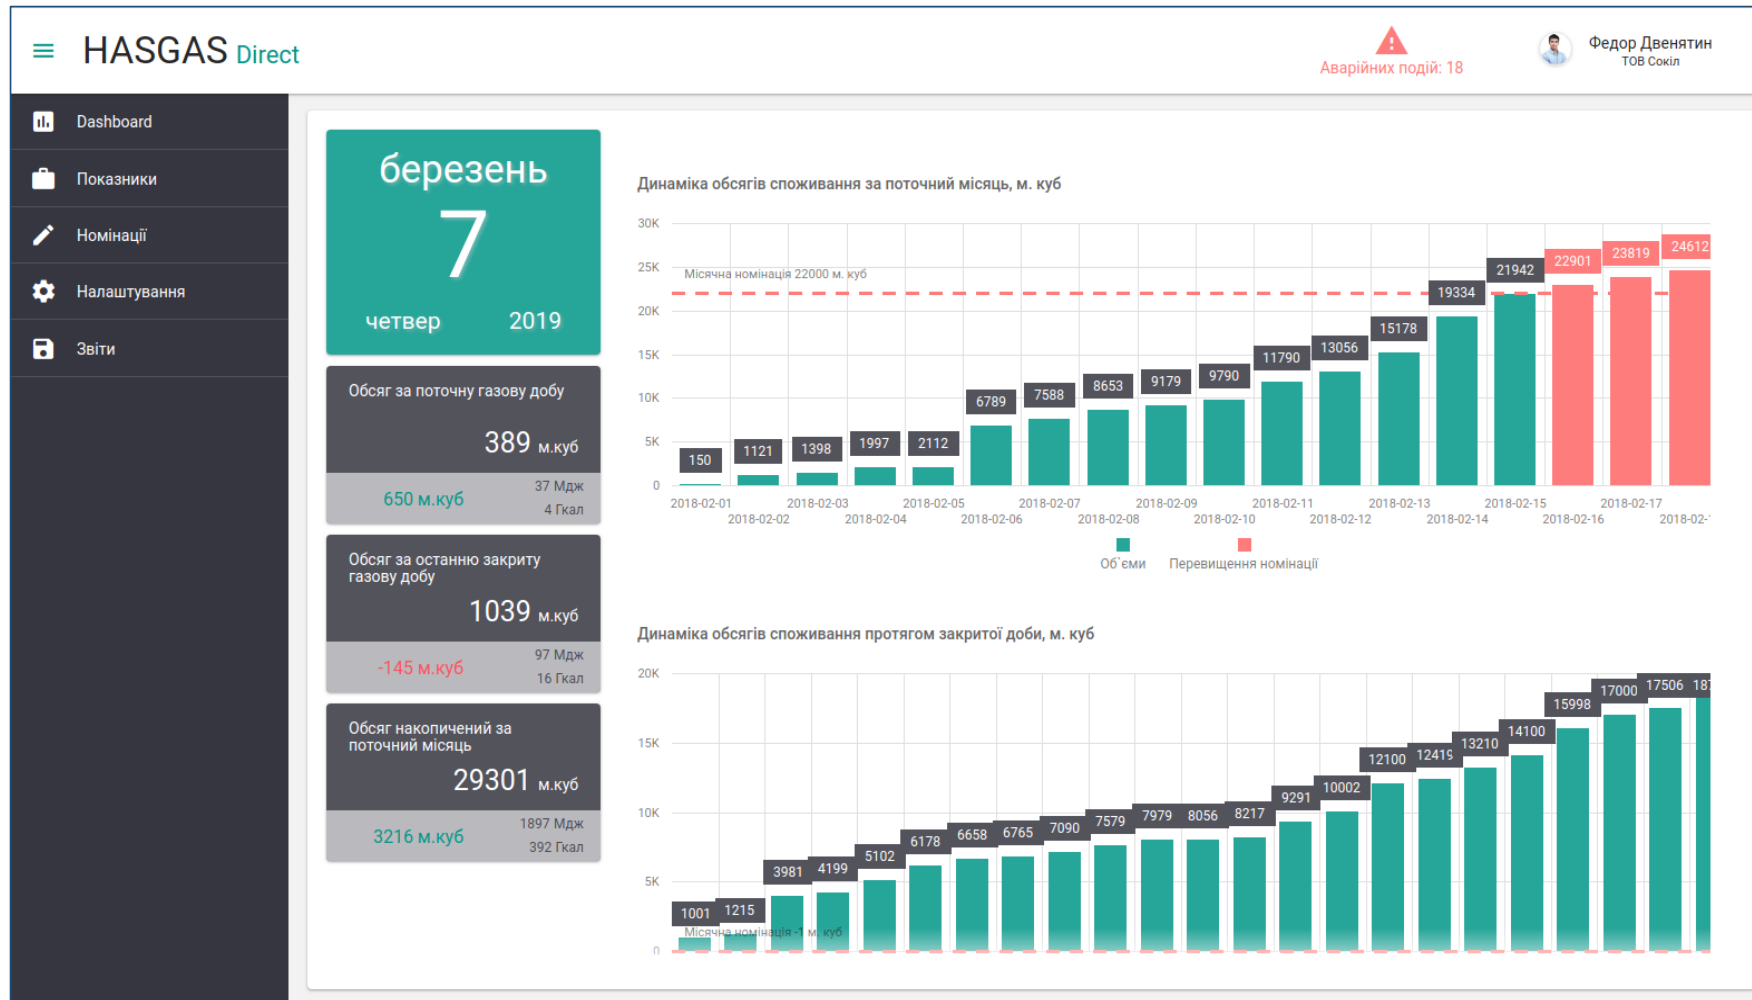

A full-fledged working tool for gas traders, allowing to obtain Data analysis over the periods from one hour up to a year range.

Allows you to see screaming consumption dynamics on each of consumers and its dependence on the established nomination.

User friendly interface, based on maximum visualization is an easy to use, and easy to understand

ITEM: HASGAS Direct

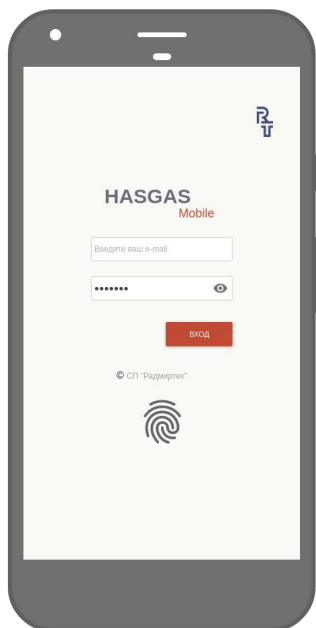

A tool for a natural gas consumers with wide range functionality.

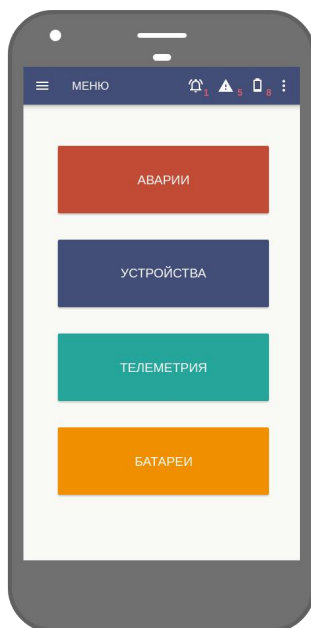

It allows not only to see the dynamics of consumption and upload reports for the desired period, but also to manage device parameters without leaving the office.

ITEM: HASGAS Mobile

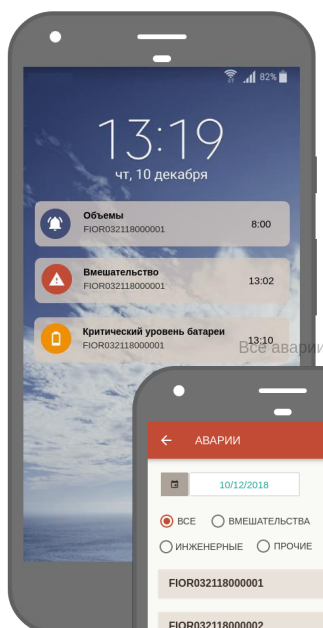

Авторизация

Меню

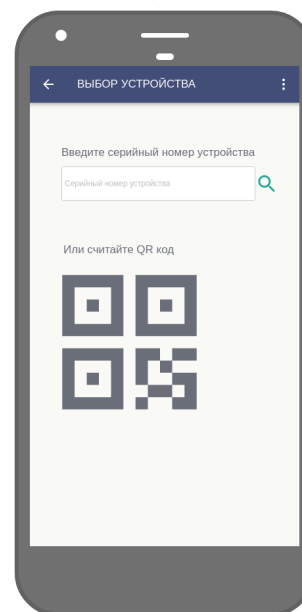

Push уведомления

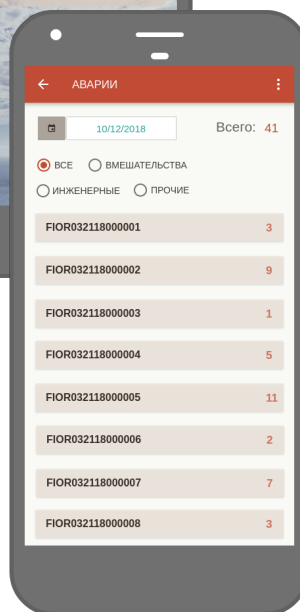

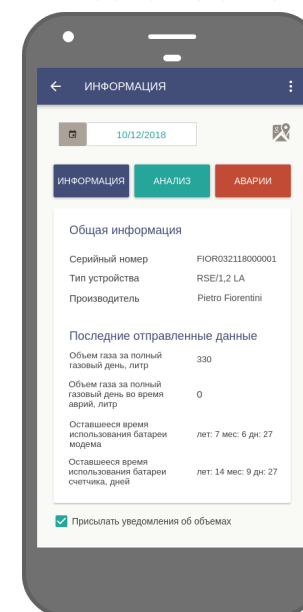

Beneficially complementing HASGAS data archiving, accounting and analysis system.

Designed to work with information from devices anywhere and anytime using a mobile phone.

Выбор устройства

Информация по устройству

- ❑ 35 Ukraine gas operators use HASGAS data archiving and accounting server software;
- ❑ More than 40,000 devices of various manufacturers connects RADMIRTECH data collection server daily
- ❑ In 2016, a pilot project “Pyatihatki” was implemented under the auspices of the NKRE;
- ❑ A pilot project “Kharkivvodokanal” with remote sensing of volume and pressure indicators was implemented;
- ❑ A pilot project in Brest and a commercial project in the village of Rubel - 1000 connections;
- ❑ Telemetry of refrigeration units of Shinkar LLC.
