Explore abundant business opportunities in WATER

Water Resources Agency (WRA), MOEA indicated that the daily output of reclaimed water is up to 100 million tons worldwide, which will increase 50% in 5 years, and the daily output of desalinated water will be nearly 200 million by 2030. Taiwan government, on the other hand, has drawn up nearly US\$5 billion-dollar budget in water infrastructure and encourages enterprises to use reclaimed and desalinated water to improve the overall water environment. *TIWW 2022 is Taiwan's only water-related B2B tradeshow, encompassing the complete water industry chain and showcasing the latest smart water solutions. If you are looking for new business opportunities in water, come and join us today!*
