Bioline Products

Czech Republic

Industry

Manufacturer of medical devices, veterinary products, and cosmetics.

About company

Bioline Products s.r.o. is a license holder to manufacture the medical device Enterosgel® and cosmetic product Enteface. Bioline Products s.r.o. is the legal manufacturer for the given devices, which may place in the markets inside and outside of the EU.

ENTEROSGEL® is an oral intestinal adsorbent - enterosorbent. It is based on organic minerals (organic silicon) having the capacity to adsorb a number of toxic and harmful substances (e.g. endotoxins, enterotoxins) in the digestive tract, thereby binding them to its surface and subsequently reducing stool frequency and the duration of diarrhoea. ENTEROSGEL® is expelled from the body during the bowel movement, thus eliminating the adsorbed toxins and harmful substances, which is beneficial for the treatment of acute diarrhoea and chronic diarrhoea associated with IBS.

The luxurious EnteFace cleansing and soothing detoxifying face mask is a unique combination of Enterosgel, panthenol, rare oils and herbal extracts. It will detoxify, soothe, nourish and rejuvenate your skin. The result will be that your skin will glow.

New Anna Cosmetics

Poland

Industry

Cosmetics

About company

The history of New Anna Cosmetics dates back to 1991 when the Company. New Anna Cosmetics first started its activity only on the pharmaceutical local market and quickly gained the trust and loyalty of clients, soon expanding to cooperate with the biggest pharmacy wholesale companies in Poland.

In recent years due to popularity of our natural hair care products we started to focus on developing cosmetic branch of the Company and including lip and body care products. Nowadays, our products are well-known not only in Poland, but also in many countries all over the world. We are active on 3 main fields: pharmacy, cosmetics and private label. Since the beginning the main philosophy of New Anna Cosmetics was to create safe products based on herbal extracts. We believe in innovation as a source of business and place emphasis on creative solutions. Our clients' and business partners' trust is the best indicator of quality and effectiveness of our products. New Anna Cosmetics is a member of the Polish Union of Cosmetic Industry.

Yappco

Poland

Industry

Cosmetics

About company

The products are apple-based as apples are a rich source of dermatologically effective substances. Naturalness as it allows for healthy and effective beauty care. Veganism - as our products do not contain animal-derived ingredients. Moisturizing is fundamental as it is where skin care begins. Certification - as we do not fear to have our products checked for complying with the highest standards. Simplicity and a skincare diet - as a care product may be even better without unnecessary ingredients, and thus our motto is: "less is more". No waste - as all components of the final products are recyclable.

GENO SCOPE

Poland

Industry

Cosmetics, supplements

About company

Colostrum is a bioactive substance and requires special attention in order to maintain its high quality and most importantly - its repeatability in each subsequent batch collected. With the growing popularity and awareness of what colostrum is and how amazing its properties are, we have noted an increasing number of poor quality preparations available on the market, without any quality parameters or guarantees of origin.

Skipping the highest quality standards means that colostrum as a natural substance can be completely worthless and may not be fully used in supplements or cosmetics. In order to ensure the highest quality of raw material, Genoscope together with the Institute of Research, Applied Sciences and New Technologies in Warsaw, introduced the **[GENO]COLOSTRUM** quality mark. It guarantees that the colostrum which products contain is completely safe and meets the highest quality standards. Owing to such parameterization it is possible to ensure the highest quality and maximum use of this fantastic substance.

2K - UKRAINE

Industry

Hair cosmetics, household chemistry

About company

“2K” company was established in 2018, and is a leader in the Ukrainian market among manufacturers of household chemicals, detergents, cosmetics and hygiene products. All products are developed in our own 2K laboratory under the careful guidance of Ukrainian-German specialists. Only the best advanced technologies, high-quality raw materials and professional fully automated German equipment are used in our production. We also produce our own packages.

All our products have Eco-certification.

We cooperate with the largest networks and online marketplaces in Ukraine. The products of our company are successfully exported to world markets, in particular, to Europe, Asia and Africa. We are open to new markets and cooperation.

INVEX remedies

Industry

Cosmetics, supplements.

About company

We create innovative cosmetics and dietary supplements based on microelements. Invex Remedies company was established based on the technology of the INWEX Innovation and Implementation Unit, which was founded in 1987 by an outstanding inventor, Stanisław Szczepaniak - the main creator of over 150 patents, honored with numerous awards, titles, distinctions as well as orders and gold medals awarded during the invention fair. Invex Remedies is a company where we have clearly defined priorities. Through constant development and research, we follow the needs of modern man. We use our own patents and inventions to improve the quality of life. The essence of our activity is scientific work, searching for answers to difficult questions and issues. The laboratory and the production line allow the introduction of advanced technologies as well as the creation and implementation of innovative solutions. Our primary goal is to share knowledge, research results and achievements with

INTER GROUP

Industry:

cosmetic tools - including nail files

About company

INTER GROUP has been in the cosmetic market since 2014. Our main business is manufacturing files and other abrasive products at our own factory in Namysłów.

As a company, we promote the use of disposable cosmetic tools - including nail files - to raise hygiene standards in beauty salons. There are several brands operating under the wings of INTER GROUP - MANI KING, ABA GROUP, ELDA BEAUTY, INTERB2B, as well as a file factory.

TENEX

Industry:

Cosmetics

About company

Tenex Sp. z o. o. is a manufacturer and distributor of cosmetics for face and body care, hair care and styling, as well as modern care accessories, including sonic brushes. For over 30 years, our cosmetics have been available on the Polish market and in over 30 countries around the world. We are the manufacturer of the DermoFuture Precision brand and completely new brands - DFUTURE and YOLYN. In our products, we combine nature with modern technology. The ingredients are selected so that they give the best results in a short time, comparable to the effects of aesthetic medicine. We strive to make our products joy and pleasure to use, while meeting the needs of the skin. The effects of our work have been awarded many times with prestigious awards such as Qłtowy Kosmetyk, Women's Brand of the Year or Pearl of the Cosmetics Market. We are also the sole distributor on the Polish market of top Dutch hair products by Hegron Cosmetics B.V. and Marimer brand products. We also produce Private Label available worldwide.

GLOV

Industry

Cosmetics, accessories

About company

We are Monika Żochowska and Ewa Dudzic-Filaseta - young Polish women who put all their passion and hearts into creating innovative cosmetic products. Products millions of women around the world can't live without and they can't imagine their daily care not having them at their fingertips. They were made for their own needs and created with passion.

It all started with the fact that we lacked the perfect make-up removal product, which would shorten this everyday, boring duty to a minimum, turn it into a sensual SPA ritual in your own bathroom, and at the same time was friendly to skin and the environment.

We had a very clear vision of the goal we wanted to achieve: to give every girl in the world a solution for make-up removal that would be natural, eco-friendly, easy to use on the go as well as skin-friendly.

This is how our iconic make-up removal glove was created today, followed by other products that stole the hearts of women in Poland and around the world. Knowing and understanding the needs of women, and above all dealing with what we love and what we are good at, we have succeeded in developing the Glov brand on a global scale. Nowadays, our products are used by women in over 60 countries around the world.
