R&D

Chinese Company Catalog - Networking Event - May 13, 2015

The Office of the Chief Scientist of the Ministry of Economy and MATIMOP-The Israeli Industry Center for R&D invite Israeli companies to participate in the Israel-China Biomed 2015 Networking Event, to be held on May 13, 2015 from 9:00 am - 5:00 pm at the Park Plaza Orchid Hotel (79 Hayarkon Street, 2nd Floor) in Tel Aviv. The event is being held on the occasion of the IATI Biomed Conference 2015. More than one hundred business and official government delegates from all over China will be visiting Israel to participate in the conference and create business connections with Israeli companies.

Israeli companies are invited to participate in B2B meetings with the attending delegates – including representatives from business, incubators, investors, and government – from the biomed sector and other technology fields.

Please review the catalog of profiles and request meetings online at:
www.matimop.org.il/chinabio2015.html

[Sign Up for B2B Meetings!](#)

You must fill out the online form to request meetings. If you have any questions, please contact the following MATIMOP representatives:

China S&T Exchange Center (CSTEC) Delegation – Biomed

1. Anhui Science and Technology Exchange Center

Company Website: www.astec.org.cn

Name and Title of Company Representatives: CHEN Xiaohua, Deputy Director

Description of Company: ASTEC facilitates business visits and exhibitions of foreign organizations, institutes, enterprises to China, as well as technology transfer and R&D collaboration with Chinese counterparts. ASTEC has the capacity to provide consultation for companies and institutes in R&D collaboration, technology transfer and joint venture, etc.

Description of Type of Cooperation You are Seeking: Seek cooperation with Israeli Incubators and technology transfer agencies to undertake technology transfer and enhance collaborative R&D between Israel and Anhui province.

Special Characteristics of the requested partner: Innovation center, research institutes, incubators and technology transfer agencies

Specific Companies that you want: Companies engaged in service for technology transfer and R&D collaboration.

2. Shanghai JUKE Biotech Park

Company Website: <http://en.jkbp.com/index.asp>

Name and Title of Company Representatives: Daisy TAO, External Affairs Manager of Shanghai JUKE Biotech Park

Description of Company--Main Business & Technology:

Shanghai JUKE Biotech Park is a state-owned science park and incubator with over 200 portfolio companies in China. These startups and enterprises focus on biotech, pharmaceutical and life science.

Description of the type of cooperation and partnerships you are seeking:

Advanced products, technologies from Israel are welcomed for further cooperation with Chinese companies. More information will be updated after JUKE collects the requirements from member companies.

Special characteristics of the requested partner:

In the fields of biotech, pharmaceutical and medical devices. More information will be updated after JUKE collects the requirements from member companies.

3. *Shenzhen Leveking Bio-Engineering Co.,Ltd.*

Company Website: www.leveking.com

Name and Title of Company Representatives: Guo Hongtao, CTO; Zhang Qian, Chief Engineer

Description of Company – Main Business & Technology:

Established in 2001, LEVEKING has emerged as a best-known worldwide leader in the field of Enzymes for Animal Feed, Baking industry and Paper Industry. Moreover, Leveking is the first enterprise which uses Lipase in feed industry in China; it is approved by Ministry of Agriculture of the People's Republic of China and obtained the product licence for feed additives and the product.

Description of the type of cooperation and partnerships you are seeking:

Seeking for the partnerships to expand the market, company with technology and products of fermentation and enzyme

4. *Shenzhen Sciarray Biotech Co., Ltd.*

Company Website: www.sciarray.com

Name and Title of Company Representatives: Liancheng lin, general manager

Description of Company – Main Business & Technology:

Sciarray Biotech Co. was founded in June 2001, with over 50 staffs and 2000 m² of GMP workshop + offices. The company mainly involves in researching, manufacturing and marketing clinical diagnostic products and affiliated medical devices in china market. The product lines include ELISA, CLIA, GIA, rapid test kits and especially protein microarray product serials which are exclusively unique in china market and even worldwide.

Description of the type of cooperation and partnerships you are seeking:

IVD and medical device manufacturers, co-operate for researching, distributing and joined venture.

Special characteristics of the requested partner

Future partner should have rich experiences in researching, technology, manufacturing, or willing to transfer techniques to Chinese partner.

5. Yichang Humanwell Pharmaceutical Co., Ltd.

Company Website: <http://www.humanwellpharma.com>

Name and Title of Company Representatives:

Jie Li, Chairman of the board

Yigang Fu, Director of R&D Center;

Luanyuan Tian, Deputy Director of R&D Center.

Jingjun Wu, R&D Engineer

Description of Company – Main Business & Technology

Yichang Humanwell Pharmaceutical Co., Ltd. is a leading specialty pharmaceutical company in China focusing on R&D, manufacturing , domestic and export business of anesthetic drugs and drugs with other specific features.

Description of the type of cooperation and partnerships you are seeking:

Cooperation in the development of medicine which can be used for refractory diseases such as malignant tumors, autoimmune diseases , neurological diseases and antibody drugs which can be used for emergency prevention and treatment of infectious diseases. Helping our company achieve industrialization of antibody drugs. Cooperation mode is not limited.

Special characteristics of the requested partner

Having abundant experience of biological mAb development or generic drugs. Providing services and help to our company through whole process from research to industrialization of biologics (including biologics process development on the up and downstream, analytical method development, quality control and supervision, clinical trials, equipment and plant design etc.)

6. Shanghai Puyi Chemical Co., Ltd

Company Website: www.gyrochem.com

Name and Title of Company Representatives: Jinhai Yu(Project Director)

Description of Company – Main Business & Technology

We are qualified as Chinese high-tech enterprise in 2010, then awarded the title of Shanghai innovative enterprise, technology center of Songjiang district and Shanghai little giant cultivation enterprise in 2012. We operate two R&D centers. Our labs cover 1000M2 with state-of-the-art equipment for experiment of chemistry synthesis, biocatalysis and analysis. It's one of our advantage to combine biotechnology and synthetic technology effectively.

Description of the type of cooperation and partnerships you are seeking:

More technical cooperation on biotechnology and synthetic combination of technology

7. Shenzhen Cell Technology Co., Ltd

Company Website: www.szcell.cn

Name and Title of Company Representatives: Zhang Diping , General Manager

Description of Company – Main Business & Technology:

To develop and manufacture human stem cell productions and to develop autologous immune cell therapy technology.

Description of the type of cooperation and partnerships you are seeking:

Cooperation for R&D

8. YSY(Shanghai) pharmaceutical Co., LTD

Company Website: www.sh-ysy.com

Name and Title of Company Representatives:

Jiangyuan, Product manager

Description of Company – Main Business & Technology:

An enterprise engaged in new drug research and development, production and sales

Description of the type of cooperation and partnerships you are seeking:

New project investment; help partner register in china; explore market in china

Special characteristics of the requested partner:

Interesting in china market; if medical device with FDA or CE is the best

9. Anhui BioX-Vision Inc.

Company Website: www.bioxvision.com

Name and Title of Company Representatives: Guoxing Wang CEO

Description of Company- Main Business & Technology:

Anhui BioX-Vision.Inc located in the Institute of Advanced Technology of University of Science and Technology of China (USTC) in Hefei national hi-tech development zone with nucleic acids, peptides, proteins, antibodies, scientific research and services as the core business. Company is committed to the making of biologics (including the detection kits) screening and verification platform while participating in or leading the making of the preclinical test standard of the state biologics in addition to the building of the screening and verification industry alliance of regional biologics.

Description of the type of cooperation and partnerships you are seeking:

Hope to communicate about PD-1 monoclonal antibody with some effective companies, In these area of drugs development and transformation, protein, custom peptides, amino acids, etc, we hope to find credible cooperators to establish long-term relationship. About cooperation methods: technique or be vendors or any others

Special characteristics of the requested partner

Companies with good faith and credibility, and have ability to pay for some deposit of products

10. *Biossom Investment*

Company Website: <http://www.biossom.com>

Name and Title of Company Representatives:

Su Yan, Partner, General Manager

Zhang Shufeng, Deputy General Manager

Description of Company – Main Business & Technology

Venture Capital focused in the field of Biotechnology, Biopharmaceuticals, Medical Devices, Diagnostics, Therapeutics

Description of the type of cooperation and partnerships you are seeking:

To Invest Biotech, biopharm, medical device, diagnostics and therapeutics companies

11. *HuaChuang Pharmtec*

Company Website: www.rachina.com.cn

Name and Title of Company Representatives:

Zhang Hongliang Executive Deputy General Manager; Zhong Lihua, Engineer

Description of Company – Main Business & Technology:

Huachuang Pharmtec Co., Ltd is a consultancy located in Beijing, China. At Huachuang, the team has over ten years of experience from both medical device industry and the governmental institutions. With a deep understanding on medical device registration, and GMP guidelines, the team is also armed with the most up-to-date government policy and regulatory rules. For local manufacturers, Huachuang provides a one-stop service of plant construction, equipment selection, manufacturing counseling, trial production, registration and EMC test. For foreign product entering Chinese market, Huachuang provides service on Chinese SFDA registration and distribution counseling from marketing, sales, clinical trail support to post sales service.

Description of the type of cooperation and partnerships you are seeking:

Support the manufacture of Israel to get the certificate of medical device in china, and help the manufacture to make up the sales net in china.

Special characteristics of the requested partner:

The manufacture of medical device in Israel.

12. Shanghai Sine Promod Pharmaceutical Co., Ltd.

Company Website: <http://en.sinepromod.com/>

Name and Title of Company Representatives: XIA QIN, Deputy general manager

Description of Company - Main Business & Technology:

Shanghai Sine Promod Pharmaceutical Co.,Ltd. is a Shanghai based manufacturer of medicines and health products.

In 1994, Promod Ginkgo biloba L. Extracts Capsule, the firstborn product of Shanghai Sine Promod, became China's first high-quality Ginkgo biloba preparation, after technology innovation, its quality soon reached the level of world leading brands. Now, the company's products have a total of 15 types and more than 20 specifications. Product line of Shanghai sine Promod covers patent medicines, pharmaceuticals herbs and its extracts and health products.

Description of the type of cooperation and partnerships you are seeking:

Special characteristics of the requested partner

Specific Israeli companies that you want to meet:

Pharmaceutical companies

13. Tianjin Boomate Medical Instrument Co., Ltd.

Name and Title of Company Representatives: Yuanyuan Hua, Deputy General Manager

Description of Company - Main Business & Technology:

TIANJIN BOOMATE MEDICAL INSTRUMENT Co., Ltd is a professional corporation which was founded in 2001 and concentrated on providing the solution to the OR, ICU, infection control and modernized logistics.

Description of the type of cooperation and partnerships you are seeking:

Identifying service providers, manufacturers and suppliers

Special characteristics of the requested partner:

Qualification in relevant industries, such as ISO\ CE certificates and so on. Qualified corporation with excellent capability in R & D , manufacture and service.

14. Tianjin Golden Valley Medical Devices Co., Ltd.

Name and Title of Company Representatives: Chenhui VP

Description of Company – Main Business & Technology:

International Medical devices introduction and transfer to China

Description of the type of cooperation and partnerships you are seeking:

Seeking for good medical projects and introduce to China, Can accept all kinds of collaboration ways

15. Tianjin Pharmacn Medical Technology Co., Ltd.

Company Website: <http://www.pharmacn.com/>

Name and Title of Company Representatives: Tian Dongkui, general manager

Description of Company – Main Business & Technology:

TIANJIN PHARMACN MEDICAL TECHNOLOGY CO.,LTD. is a high-tech enterprise located in Tianjin Binhai New Area specializing in R&D, manufacturing, sales, import and export trade of new APIs, pharmaceutical intermediates and fine chemicals.

We dedicated ourselves to the development and innovation of sophisticated API molecules including anti-cancer, cardiovascular, anti-diabetes, immunosuppressant and anti-coagulant drugs, etc. We also focus on and keep strengthening the scale-up production technology, our core competencies, to serve domestic and overseas customers with technology solutions. We also provide advisory service on intellectual properties and venture investment to Chinese small and medium-sized enterprises.

Description of the type of cooperation and partnerships you are seeking:

Seek to be supplier of advanced pharmaceutical intermediates to International API manufacturers.

Supply China-origin industrial chemicals, fine chemicals to overseas customers.

Seek venture investment into our company for new project development.

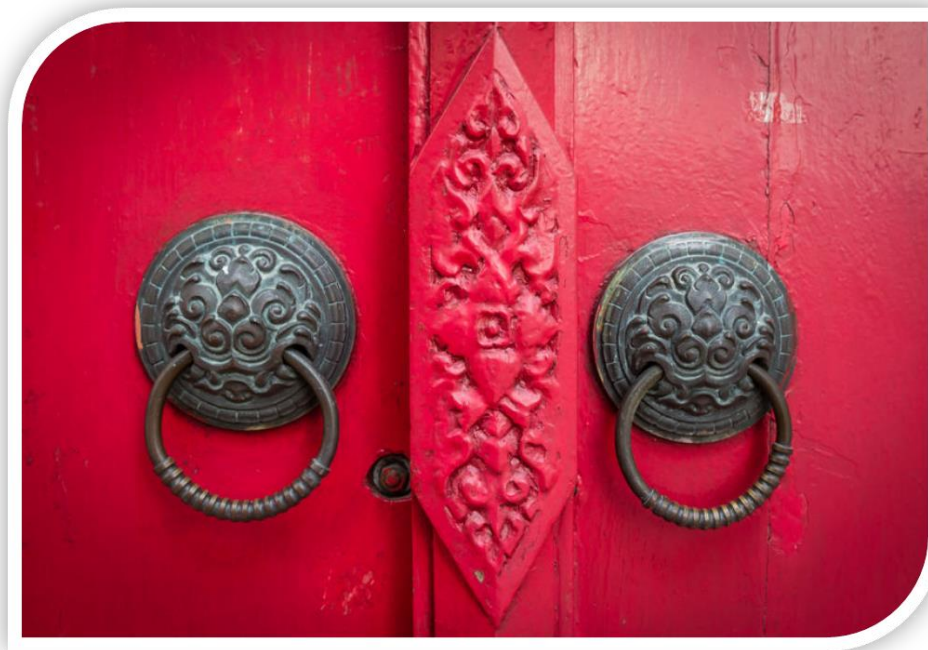

Special characteristics of the requested partner:

Esteemed company in pharma or chemical industry, professional in international procurement and have good credit record.

Sinopharm Group Delegation – Biomed

**Please note, these delegates are available for meetings only between 9 am and 1 pm*

16. China National Accord Medicines Corporation LTD

Company Website: <http://www.szaccord.com.cn/>

Name and Title of Company Representatives:

Yan Zhigang, General Manager of China national Accord Medicines Corporation LTD

Huang Yan, Deputy General Manager of China national Accord Medicines Corporation LTD

Wang Lei, Director of R&D Dept. of China national Accord Medicines Corporation LTD

Ding Mei, Deputy Director of R&D Dept. of China national Accord Medicines Corporation LTD

Description of Company – Main Business & Technology:

Revenue of RMB 21.2 billion (USD3.48 billion) in 2013. Target to hit RMB 50 billion by 2015. Business Sector divided into 2 divisions:

Pharmaceutical Distribution Div.: The largest pharmaceutical distributor in Southern China

Pharmaceutical Industrial Div.: Ranked Top 50 pharmaceutical manufacturers in China.

The Leading manufacturer of cephalosporin finished dosage in China.

1st EU-GMP certified manufacturer of injectable cephalosporin in China.

1st EU-GMP certified manufacturer of Oral cephalosporin in China

Description of the type of cooperation and partnerships you are seeking:

Branded generic exportation: cooperation with local pharmaceutical companies through license & distribution agreement.

Contract-manufacturing: service provided to pharmaceutical companies, who wish to outsource its manufacturing process.

API exportation; License-in products from renowned international pharmaceutical company for Chinese market. Join-venture establishment

Special characteristics of the requested partner:

R&D institutes: have the experience of launched NCE in FDA; pharmaceutical companies: revenue more than USD1billion in 2014

Pharmaceutical distribution partners: have Nation-wide sales network, Distribution & Logistics network

17. China National Medicines Guorui Pharmaceutical Co., Ltd.

Company Website: www.guorui.com.cn

Name and Title of Company Representatives: General Manager, Jin Renli

Description of Company – Main Business & Technology:

China National Medicines Guorui Pharmaceutical Co., Ltd. is one of the important industrial strategic planning and development base of Sinopharm Group.

The company is located in Anhui Huainan Economic and Technological Development Zone with an area of 400 acres, the company is specialized in five forms of production: API, freeze-dried powdered injection, powdered injection, small capacity injection and oral solid preparation (tablets, hard capsules). All production lines have passed China GMP certification. Products cover cardiovascular, anti-infection, oncology, respiratory, digestive urology, neurology and other therapeutic agents and chemical raw materials.

The company's technologies are derived from Shanghai Institute of Pharmaceutical Industry, and established joint laboratory.

Description of the type of cooperation and partnerships you are seeking:

Raw materials of chemical medicine, preparations, health and functional products technology transfer, contract production and sales in China, establishment of joint venture, and construction of production line

Special characteristics of the requested partner:

Must be in line with Chinese medicine, health products laws and regulations

18. China National Scientific Instruments & Materials Corporation

Company Website: www.csimc.com.cn

Name and Title of Company Representatives: Mr. Shen Changhui, Director of International Cooperation Department

Description of Company – Main Business & Technology:

- a. Domestic commercial business (includes Consumables procurement, GPO and government procurement, medical devices distribution)
- b. Industry and Research business (includes R&D and manufacturing of consumables & equipments, as well as other value-added services such as maintenance)
- c. Import and Export business (includes I&E of scientific instruments and medical devices)
- d. Other business (includes bidding, government procurement, technical services, international exhibitions, and Real-estate management).

Description of the type of cooperation and partnerships you are seeking: Seeking manufacturers and suppliers of medical equipment company to promote products in China, and hoping to establish business relationship with local distributors of industrial devices and scientific instruments.

19. Chongqing SD Experiment Instrument Co., Ltd.

Company Website: www.cqsdei.com

Name and Title of Company Representative: Mr. Wang Changxun / Chairman

Description of Company – Main Business & Technology:

Chongqing SD Experiment Instrument Co., Ltd. is the china's key enterprise of the production environment and reliability test equipment, state-level high-tech enterprise, professional design and manufacture of climate environmental testing equipment, space environment simulation equipment and laboratory equipment, one of the main drafting unit of national standard for a number of climate environmental testing equipment and laboratory instruments, standing director unit of China instrument industry association.

Chongqing SD Experiment Instrument Co., Ltd. is located in the Export Processing Zone, New North of Chongqing, and 11 km away from the jiangbei international airport, 3 km to harbor, 8 km away from the train station. Here a beautiful environment, convenient transportation and with all the favorable conditions necessary for a modern enterprise development.

20. J.Z.M.C. Patent and Trademark Law Office

Company Website: www.iprtop.com

Name and Title of Company Representatives: Mr. Mingwei YU, Managing Partner

Description of Company – Main Business & Technology

JZMC is a professional organization which can independently accomplish various Intellectual property related services, such as patent and trademark agency, IP strategy consultation, IP legal services, Free-to-operate consultation, Infringement investigation and so on.

Description of the type of cooperation and partnerships you are seeking:

We are looking for cooperation opportunities with technology enterprises or IP Firms which has IP protection requirements in China and the cooperation or partnerships include helping the Israeli companies to obtain IP protection in China and establishing an open and win-win cooperation relationship with the Israeli IP Law Firms.

Special characteristics of the requested partner:

Technology enterprises or IP Firms which has IP protection requirements in China;

Israeli domestic Law Firms, especially IP Law Firms.

Technology enterprises which have requirements or inquiries on Intellectual Property Protection in China; Law Firms in Israel which may establish cooperation relationship with our firm.

21. Science & Technology Commission of Shanghai Pudong

Company Website: www.techpudong.gov.cn

Name and Title of Company Representatives:

1. Mr. Gu Bing, Deputy Director
2. Mrs. Kong Lingyi, Director of High Tech Industry Department

Description of Company – Main Business & Technology:

International technology communication and cooperation, promote enterprise technology innovation and commercialization of innovative applications and technologies

Description of the type of cooperation and partnerships you are seeking: Establish platform for enterprise cooperation and push forward technology R&D and technology transfer.

Special characteristics of the requested partner: Government and corresponding organizations; Medical equipment, Bio Tech, pharmaceutical companies and research institute

22. Shanghai Zhangjiang zhongke Industrial Technology

Innovation & Business Incubator

Name and Title of Company Representatives: Zonghai Wang (Director)

Description of Company – Main Business & Technology:

Integrating functions of colleges and research institute, industry organizations, To create innovative industry chain.

Description of the type of cooperation and partnerships you are seeking: Taking the project of cooperation for the purpose ,joint research and development

Special characteristics of the requested partner: With the joint research and development needs.

23. *Shineway Pharmaceutical Group Ltd.*

Company Website: www.shineway.com

Name and Title of Company Representatives:

Mr. Li Zhigang, Dean, RD Center of Shineway Pharmaceutical Group Ltd.

Gao Junpeng, Head of Health Food Section, RD Center of Shineway Pharmaceutical Group Ltd.

Liu Jianxun, Vice Director of Xiyuan Hospital

Description of Company – Main Business & Technology:

Shineway Pharmaceutical Group Ltd. principally engages in the development, manufacture and sales of modern Chinese medicines. It is one of the "Top 100 pharmaceutical enterprises" and "Top 10 Chinese medicine enterprises" in China. The company's shares are listed on the Main Board of the Hong Kong Stock Exchange. Targeting primarily on three rapidly growing medicine markets for the middle age, elderly and children, and anti-viral diseases, Shineway has always focused its development of modern Chinese medicine product portfolios in prescription medicines characterized by three major dose forms-injection, soft capsule and granule which have strong competitive niches.

Description of the type of cooperation and partnerships you are seeking:

Novel food; Advanced Formulation Technology; Innovative Drug; Medical Equipment

24. SINO Pharmengin Corporation

Website: www.pharmengin.com

Name and Title of Company Representatives: Zhou Jie, Director of Design management department of SINO Pharmengin corporation; Liu Jianfeng, Vice president of SINO Pharmengin corporation Guangzhou Branch; Lu haorong, Director of process and equipment department

Description of Company – Main Business & Technology:

Sino Pharmengin Corporation (hereinafter referred to as Pharmengin) was founded in 1969 under the leadership of China National Pharmaceutical Group Corporation. Pharmengin is a comprehensive engineering corporation that can undertake engineering consultant, design, management, EPC, supervision, GMP validation. We have about 600 engineers, and have the permission to take all kinds of pharmaceutical engineering construction project. We have thirteen Special Technologies, such as Design technology for low pressure nitrogen protection system of API intermittent operation unit, Treatment technology for exhaust gas in API manufacture, Design technology for high vacuum distillation system, Design technology for airflow analogue simulation of clean environment in clean workshop, Design technology for energy conservation of Class-B area in clean workshop of pharmaceutical industry, Automation design technology for Chinese medicine manufacture, Airtight transport technology for solid preparation materials, Treatment technology for return air of producing dust areas in solid preparation workshop, Modern biopharmaceutical optimization design technology, Automation technology for fermentation, Design technology for heat exchange system of homogeneous medium of reactor, Design technology for brine cool storage of pharmaceutical factory and Design technology for energy conservation of the water system of central air-conditioning fuzzy control. Also we have two patent technologies, such as High vacuum distillation purification device and Drum Wiped Film Type Evaporation Device).

Description of the type of cooperation and partnerships you are seeking:

We are looking forward to cooperate with the pharmaceutical enterprise to help them to construct their engineering project.

25. Sinopharm Chongqing Pharmaceutical Industry Designing

Institute

Company Website: www.cpidi.com

Name and Title of Company Representatives: Director of Process & Equipment Department

Description of Company – Main Business & Technology:

Pharmaceutical & Medical Engineering Design, consulting, project management, EPC general contracting

Description of the type of cooperation and partnerships you are seeking:

Seeking engineering company to promote biological, pharmaceutical, medical engineering service together in the market of China, Asia and the world.

26. Sinopharm Group Co. Ltd.

Company Website: <http://www.sinopharmholding.com/>

Name and Title of Company Representatives:

Yingjian Zhuang, The Director of Business Development

Description of Company - Main Business & Technology

Import, Distribution, Marketing Promotion, Retail, Pharmaceutical manufacturing, Medical Apparatus, Health Care

Description of the type of cooperation and partnerships you are seeking:

Merger and Acquisition, Pharmaceutical Suppliers, License in, Selling Alliance

Special characteristics of the requested partner:

Global renowned pharmaceutical enterprises, own characteristic health care production or technology,

27. Sinopharm Group Co., Ltd.

Company Website: www.sinopharmholding.com

Name and Title of Company Representatives: Mr. Lu Jun, Vice President

Description of Company - Main Business & Technology:

Sinopharm Group Co. Ltd. ("the Group") (1099.HK), which is China's largest distributor and leading supply chain solution provider for pharmaceutical and healthcare products, The Group has integrated operations in three business segments, namely pharmaceuticals distribution, retail pharmacy and other business. For the year ended 31 December 2014, the revenue of the Group amounted to RMB 200.1 billion.

Special characteristics of the requested partner:

Partners with leading market position and healthy financial performance in the business segments of pharmaceuticals distribution and retail pharmacy.

Jiangsu Province Delegation – Biomed

28. Gproan Protein Engineering, Inc (Gproan Biotechnologies (Suzhou) Inc)

Company Website: www.gproan.com

Name and Title of Company Representatives: President, CEO

Description of Company – Main Business & Technology:

Gproan was founded in 2006 and have had two operating sites in China. The major two parts of business are virus-like particle (VLP) vaccines research and development and large scale recombinant protein production. Our technology platform of VLP is applying recombinant baculovirus and suspension insect cell culture to produce VLP vaccines. Our current R&D projects are Foot and Mouth Disease VLP vaccine, Porcine Circle virus 2 VLP vaccine and 10 combined HPV strain VLP vaccines. FMD and PCV2 vaccines are on animal clinic trails. The other technology platform is using recombinant yeast to produce large amount of recombinant protein products, such as Proteinase K, Nucleases etc. The production plant was certified by Bsi according to ISO 9001 quality control system (certificate No. FM 630553). Currently, we are the biggest producer for proteinase K and Binuclease (digest all forms of DNA and RNA) in the world. Animal VLP vaccines are our major missions in the future for the great potential Chinese market.

Description of the type of cooperation and partnerships you are seeking:

1. VLP vaccine R&D cooperation.
2. OEM recombinant protein production.
3. proteinase K and Binuclease distribution.
4. Seeking investors and VCs cooperation.

Special characteristics of the requested partner:

Investors or biotech companies interested in recombinant protein and VLP vaccine products R&D, production and distribution and investments.

29. Yunnan Baiyao group Wuxi Pharmaceutical Co., Ltd.

Company Website: <http://www.yunnanbaiyao.com.cn/index>

Name and Title of Company Representatives: Ms. Lu Yehui, CTO; Dr. Shao, Yu, Project Manager

Description of Company – Main Business & Technology:

Yunnan Baiyao Group Wuxi Pharmaceutical Co. Ltd., invested and founded by the Yunnan Baiyao Group in 2003, is R&D center and manufacturing base of new types of transdermal patch for healing wound and pain relief. it has developed more than 160 products including a series of Yunnan Baiyao Plastic and Band-Aid, taibang Band-Aid series, fast patch of hydrogel series, medical disposal series, 9 of which belong to II-class medical instrument and the other is I-class.

Description of the type of cooperation and partnerships you are seeking:

- 1) To seek cooperation with company, which develop and sale advanced medical devices;
- 2) To seek cooperative partners with exclusive preparation technology of advanced pharmaceutic adjuvant;
- 3) To seek company with developing new drug delivery system for the treatment of diseases.

Special characteristics of the requested partner:

- 1) The number of R&D personnel should be more than 5;
- 2) The partner have at least 1 exclusive technology related to medical area;
- 3) It will be better if partners have experiences with technology export to foreign country.

Jiangsu Province Delegation – Other Technologies

30. *Jiangsu Delin Environmental Protection Technology Co., Ltd*

Company Website: www.delin.cn

Name and Title of Company Representatives: Lingcheng Hong, General Manager

Description of Company – Main Business & Technology:

A modern production base as China's first high tech and software enterprise specialized in researching, producing and selling of water environment automatic online analytical instrument; also Jiangsu Delin is a national high-tech projects and professional committee unit of China environmental monitoring instruments. The international advanced environmental online monitoring instrument technology and the flow injection online analyzer developed by the company is in the world leading level and approved by experts and scholars in environmental protection field.

Description of the type of cooperation and partnerships you are seeking:

online water quality monitoring and technical cooperation, water quality monitoring equipment or instrument components trade and technology cooperation, project or advanced technology cooperation of online water monitoring technology.

Special characteristics of the requested partner:

Officially registered Israel company, university or research institutions and technology transfer and technology transfer intermediary organizations. The technology or product that has been industrialized or the product performance is stable, has been commercialized and has a certain size of the market of the products is preferred.

31. Soundlink Co., Ltd.

Website: www.soundlink.com.cn; www.soundlink.cn; www.soundlink.net.cn

Company Representative: XU WEI, CEO

Company Description:

Soundlink is the supplier which specialized in providing hearing aid accessories in hearing industry (such as hearing aid center, hearing aid and music earphone factories, hearing protection, swimming, sleeping, communication applications lab, etc). Our main products contain about 13 different categories (app. 1000 products).

We have: 3D printer, Scanner, Hearing test equipment, Customized hearing protection, Care products for hearing aids and earphones, Marketing and displayers including silicon ears, Equipment and material for earmold production, Maintenance and repairing tools, Zin-air power battery, Material for earmold, Hearing aid dispensers' tools and so on.

Soundlink has serviced not only for around 4000 hearing institutions but also famous hearing aid manufactures like Siemens, Phonak, Unitron, Gnresound, Starkey, Oticon, Widex, Austar, Newsound and so on, we have built closed cooperation relationship.

We wish could improve even get the know-how about in-ear scanning technology, 3D material prescription, impression material prescription, noise and language processing technology, etc.

Cooperation Interests:

- 3D Ear Scanning
- 3D material prescription
- Impression material prescription
- Noise and language processing technology

Cooperation: could be "import or joint development"

32. *Jiangsu Richland Agriculture Corp. Inc*

Company Website: www.richlandsfarm.com

Name and Title of Company Representatives: Zhang Xiuhe, CEO

Description of Company – Main Business & Technology:

The company is specialized in blueberry planting, R&D of blueberry variety, seedling breeding, technical management, fruit production, sales of fresh fruit and processed fruit, fruit freshening and postharvest preservation technology.

Description of the type of cooperation and partnerships you are seeking:

The company is looking for integrated technology of water and fertilizer, surface microorganism treatment technology after blueberry picking, temperature controlling technology for greenhouse and cold chain technology.

33. *Yancheng Ruizhi Bio-tech.inc*

Company Website: www.rzbt.com

Name and Title of Company Representatives: Liu Aixiang, General Manager

Description of Company – Main Business & Technology:

Study on biological extraction technology, deep processing of purple sweet potato, tomato, garlic and other agricultural products

The main products: lycopene, garlic oil, anthocyanin

Description of the type of cooperation and partnerships you are seeking:

In the extraction of bio engineering project cooperation

In the deep processing of agricultural products and the development of new products for technical cooperation

Special characteristics of the requested partner:

Industrial enterprises or Research Institute

34. Sunpower Electronic Technology Co., Ltd

Company Website: www.njsunpower.com

Name and Title of Company Representatives: HUANG JIANLIN, General Manager

Description of Company – Main Business & Technology:

Sale, rent, technology service, etc for electronic measuring instruments

Description of the type of cooperation and partnerships you are seeking:

1. Electronic measuring instruments are instruments that mainly applied in measuring of mobile phones and base stations, including universal radio communication tester, spectrum analyzer, signal generator and network analyzer. We are looking for cooperation partners who have R&D in these instruments, or cooperation partners who have requests for these instruments. 2. Development of micro-sensors for environmental analysis: the sensors should be miniaturized or chipped, and the analyzing contents should include temperature, humidity, PM2.5, formaldehyde, electromagnetic radiation, etc. 3. Analyzing sensors for food safety with the underlying mechanism of spectrum analysis: the sensors should be miniaturized and packed with backstage database.

35. Jiangsu Tenwei Electronic Co., Ltd

Company Website: www.tenwei.com

Name and Title of Company Representatives: Ms. Liu Cuiqin, President

Description of Company – Main Business & Technology: Tenwei is equipped with leading R&D, production and QC systems, advanced automatic production and testing equipments, and owns completed SMT manufacturing spot, PSU production management and injection molding workshops etc. Products cover power bank, power adapter, Bluetooth headset and charger which production capability can reach to 300K/month respectively, data cable and protective series which production capability can reach 500K/month for each. Tenwei annually provides 3C digital accessory products as the number of over 10M sets, accumulating to sell products over 100M sets, existing production capability can reach to 12M sets per year, and products are certificated by International quality management system and environmental safety standards such as ISO900/ISO14001/RoHS/REACH/CE/UL/FCC/PSE/EMARK/KC and are patented by nationality for many items.

Description of the type of cooperation and partnerships you are seeking: Potential cooperation on instant battery charger.

36. *Jiangsu Jiashida Environmental Protection Engineering Co., Ltd.*

Company Website: www.jsd-ep.com

Name and Title of Company Representatives: Shi Guoping, the general manager

Description of Company – Main Business & Technology:

The company is mainly engaged in water treatment equipment manufacturing and turnkey projects, waste gas treatment equipment manufacturing and turnkey projects.

With the industry's 26 patents, R & D personnel 20 people, professional senior engineer 16.

Description of the type of cooperation and partnerships you are seeking:

Hope to find the strength of technology companies in the haze of cooperation

Mode of cooperation: cooperation, to create a platform technology development, joint development of customer market

Special characteristics of the requested partner:

Target partner should have a technology leading international quality, local haze processing technology of legitimate business

37. *Jiangsu DT Tech. Co., Ltd*

Name and Title of Company Representatives: Yang Ge, Vice General Manager

Description of Company – Main Business & Technology:

Responsible for the research, production and operation of Pico led DLP Projector.

Description of the type of cooperation and partnerships you are seeking:

- Pico Projector
- bare engine
- led
- natural interaction

Special characteristics of the requested partner:

The product is expected to be available in the market at present or within 12 months.

38. XINYI YONGCHENG CHEMICAL INDUSTRIAL CO., LTD.

Company Website: <http://www.yongchengchem.com.cn/enindex.html>

Name and Title of Company Representative: MR. Ying Bingru, General Manager

Description of Company:

YongCheng is a professional Agrochemicals manufacturing joint- stock enterprise. China Agricultural University agricultural innovation base of Xinyi. Technical, formulation and seed treatment - R&D, manufacturing, marketing and registration solutions.

Description of the type of cooperation and partnerships you are seeking:

Domestic and global market exploration, project process innovation and optimization, joint-investment

Special characteristics of the requested partner:

Industrial cooperation, research institute, investors

39. Jiangsu Shijie Photoelectric Co. Ltd.

Name and Title of Company Representatives: Zhijie Ding, Chairman

Description of Company – Main Business & Technology:

Mainly engaged in a new generation of LED lighting, wireless optical communication and positioning system based on product development and production, as well as the design of integrated circuit, computer software and hardware, communication products, electronic components, LED lighting and municipal engineering installation services

Description of the type of cooperation and partnerships you are seeking:

Joint development

Special characteristics of the requested partner:

For the most advanced in the underground lighting design lighting and communication, in line with international standards for the brightness of lighting distribution requirements, the LED light source was designed as a form of white LED array. At the same time, the number and arrangement of LED need to be reasonable in design, the VLC system, the communication effect to achieve the best advanced technology.

Specific Israeli companies that you want to meet:

LED engaged in the research and production of visible light.

40. Jiangsu Elextec Tech. Co., Ltd.

Company Website: www.elextec.com

Name and Title of Company Representatives: Fu Tao / GM

Description of Company – Main Business & Technology:

Jiangsu Elextec Tech. Co., Ltd. is a professional enterprise engaged in information security, industrial intellectualization, applications of Internet of things and national advanced technology. Our company always adheres to the enterprise culture of wisdom getting far, severs for government, military, education, and enterprise, and wins acknowledgment of users.

The company owns four series of product lines, such as safety defense, E wisdom and Hongzheng, and a total of 30 kinds of software, hardware and middle-ware products involving in areas of information security, electronic government affairs, industrial intellectualization. Among them the products of safety defense series became the purchase order recommended by government of national and Jiangsu provincial Secrets bureau. Company currently has more than 600 users coming from governments military industries, colleges and enterprises, and provides services including governments, military units and large enterprises, such as State Meteorological Administration, State Statistics Bureau, CPC of Jiangsu Provincial Committee, CPC of Guizhou Provincial Committee, Jiangsu province Health Department, Jiangsu province Security Department, State Secret Bureau in Jiangsu, and State Secret Bureau in Guizhou, 54 institute of the fourth department of General staff, Air Chain, China Aluminum Corporation, and China Coal Energy Company etc.

Description of the type of cooperation and partnerships you are seeking:

We are looking for cooperating partners of information security, specially hope partners involving in the fields of digital forensics in computer and intelligent terminal, anti virus, network security, security of Internet of things, cloud computing, and risk assessment.

41. Kunshan Bao Li Nonwoven Co. Ltd.

Company Website: www.cnbaoli.com.cn

Name and Title of Company Representatives: Mr. Qiu Bangsheng, General Manager

Description of Company – Main Business & Technology:

The company is located in high and new technology industries development zones in Kunshan, China. And it was founded in December 2009. The registered capital is 21.15 million yuan, and total investment is 0.12 billion yuan. It occupies a land area of 40000 square meters. The accumulated total investments of equipment are 55 million yuan, and the total assets are 0.10415 billion yuan. R & D has invested more than 16.86 million yuan and debt ratio is 49.66%. The company has 312 employees, and the R & D team has 85 people. In 2013, the annual output value is 0.148 billion yuan. The high and new technology enterprises in Jiangsu Province; the private technology enterprise in province; set up Provincial firm Graduate student Workstation、functional non-woven fabric engineering and technology research center in Suzhou City ;firm technology center in Suzhou City. National Torch Plan ,win quality credit rating of AAA grade; credit rating of AAA grade in bank; brandname products in Suzhou City. In 2012, our company gets into the top 30 in Chinese industrial textiles industry. In 2013, our company gets into top five places in Chinese industrial textiles industry technology-based standard enterprise.

The “spray shoot—tu” Hydrophilic non-woven (non-woven) technology and fibre material core technology in Soochow University that our firm indigenous designed possess completely proprietary intellectual property rights and the invention patent technology, which filled the domestic technology gap . Products are located in the middle of medical and health care products industry chain. The upstream is PP / PVC material suppliers and the downstream is medical and health supplies terminal manufacturing industry. The target product is the main material which produce medical and health supplies and the core materials in the middle link of product medical and health supplies industry chain. Realize multifunction, such as hydrophilic、flame retardant、flexible、antibacterial and so on. Its function index broke through the national standard and is close to the international standards. Filled the domestic gap; broke through the product technical performance national standard, The extensibility decreased from 150% to 45%, which dropped 170%. The evenness fibre diameter reduced from 3.0D to 1.7D, which raised nearly double. The capacity increased 33%. In 2010, the product sales were 8 million yuan. In 2011, the sales were 57 million yuan. In 2012, the sales were 100.23 million yuan. In 2013, the value of output was 148.8 million yuan.

Owned proprietary intellectual property rights: 15 patented claims, contains 1 grand authorized patent、13 utility model、25 patent. 4 high-tech products in Jiangsu Province.

2 trademarks.

Description of the type of cooperation and partnerships you are seeking:

The company is seeking advanced professional manufacturing enterprise of R & D, production, sales of nonwoven fabric in foreign and the Higher Institute as cooperation partners, and then joined efforts in developing the modification technology of world polypropylene material and the multifunctional advanced core technology of nonwoven products.

Special characteristics of the requested partner

A company that possesses the ability of nonwovens material technology professional R & D and owns world's leading technology products.
