- The index of industrial production is **108,1%** in comparison with the same period of 2009.

Main branches providing the growth of GRP

Trade

Construction

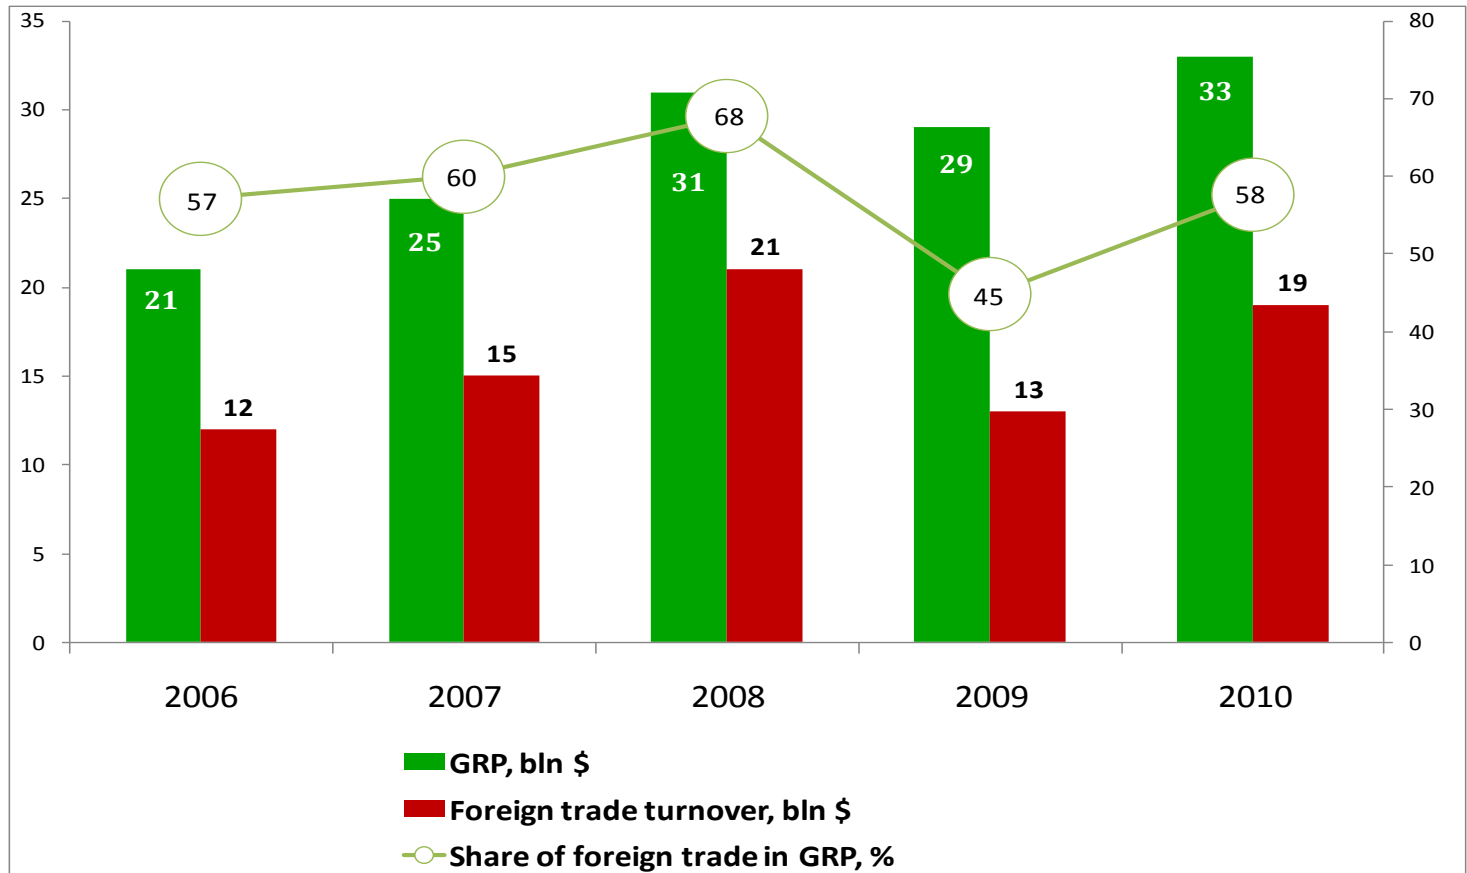

Industry

Transport and
communication

Foreign trade turnover

Cluster policy

Agriculture

Energetics

Production of components for motor vehicles and high-tech products

Automotive industry

Petrochemistry

Natural resources

Oil

More than 3 bln. tones of oil were extracted during last 60 years

Demonstrated reserves 900 mln. tones

Long-term strategy : extraction of up to 30 mln. tones per year

Bitumen

Extracted reserves 4-7 bln. tones

Advanced treatment technologies on the field

Chemistry and petrochemistry

This branch provides:

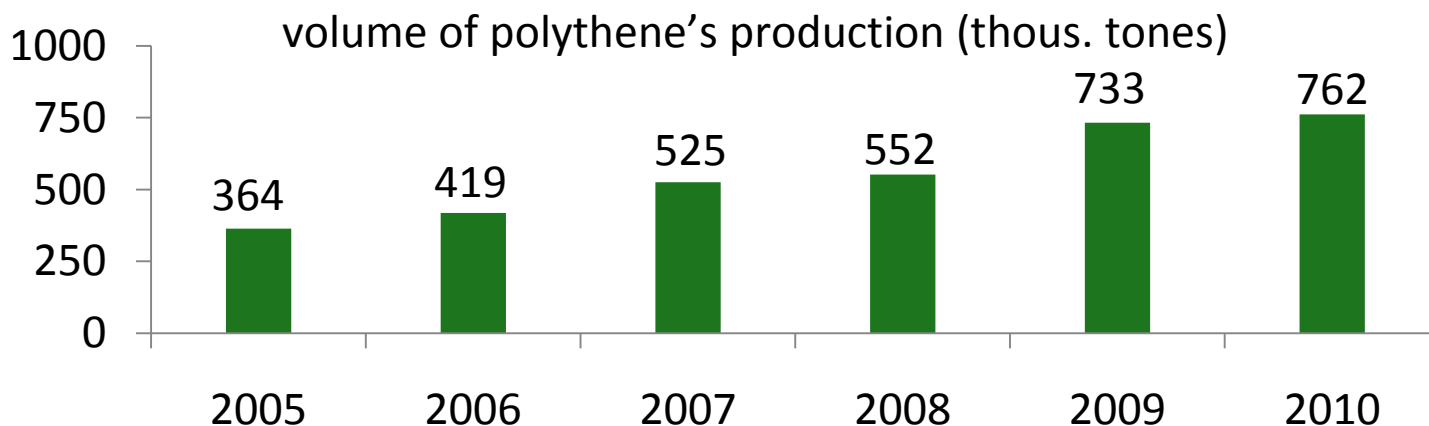

More than 26% of industrial production of Tatarstan

6,2% of total Russian volume of production

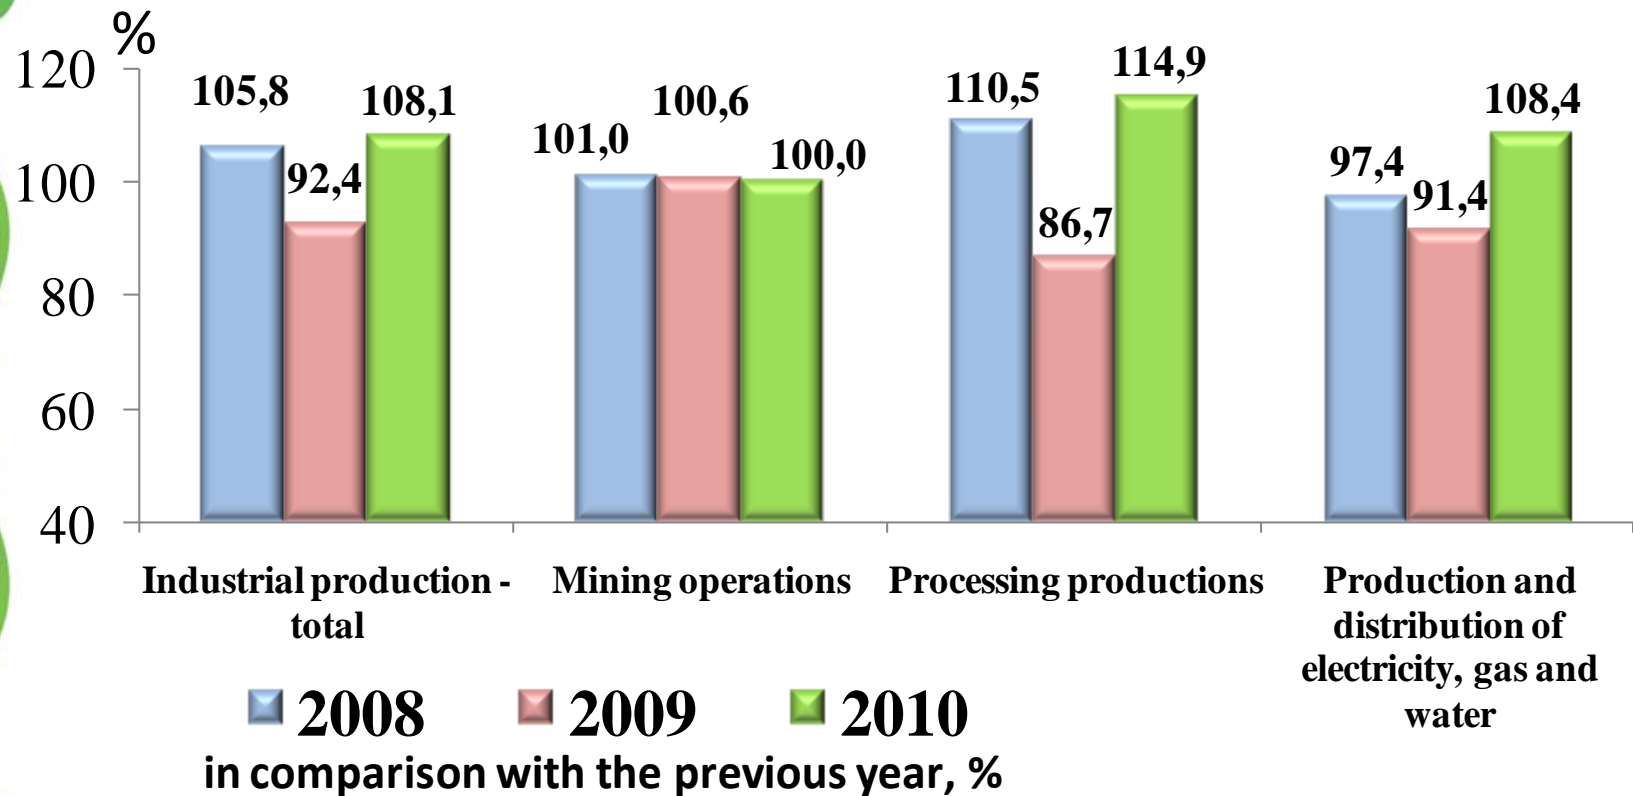

Tatarstan is the leader of Russia in producing:

- About 50% of Ethylene and polyethylene
- More than 37% of synthetic rubber
- More than 30% of tires

Industrial production

**Volume of industrial production in 2010 is
36 bln. USD**

Largest investment projects for refining industry

«TAIF-NK»

Building of complex for deep processing of heavy oil residues at the refinery
(2,3 bln. USD)

«SMP-Neftegaz»

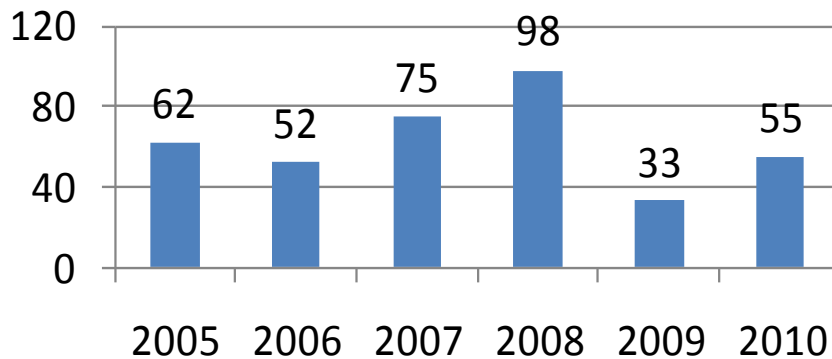

Construction of refinery for small oil companies.
(667 mln. USD)

«Ammony»

Building of integrated complex for ammonia production, methanol and granulated carbamide
(940 mln. USD)

Automotive industry

In 2010 the commodity output of large and medium-sized enterprises engineering has reached the amount of about **3.5 bln. USD**. The index of industrial production is 135,2%.

Production volume
(trucks and cars),
thous.

«KAMAZ»

• In 2010, "KAMAZ" realized about 32 thousand vehicles of "Kamaz". Volume commodity products and services amounted to **2.2 billion USD**

«Sollers»

• In 2010 JSC "Sollers-Naberezhnye Chelny" realized 25 thousand vehicles in the amount of **500 million USD**

In February 2010 the agreement about the implementation of a large project about creation of production capacities for output up to 500 thousand vehicles «Fiat» of different modifications on the territory of Republic was signed by the Chairman of Government of the Russian Federation Vladimir Putin

Autocomponents of world's leading manufacturers using by «KAMAZ»

«MAHLE Crankshaft bearings

«Bosch»
Fuel injection pump assembly

«Wabco», «Knorr»
Brake devices

«Schwitzer»
turbocharger

«RBL», «ZF»
hydraulic booster

«Wabco»,
«Knorr» ABS

«Webasto»
heater

«Federal Mogul»
piston rings

«Borg Warner»
ventilator

«ZF»
transmission

«Bosch»
lamps

«GF»
Sit drawbar

«Mann Hummel»
Fuel and oil filters

«DEUTZ»,
«Cummins» engine

High technologies: aircraft industry

Tatarstan produces all types of civil aircraft such as long-haul passenger aircrafts, heavy-duty engines, middle copters and air control devices.

Federal state unitary enterprise «Kazan production association», produces:

- TU-214 aircrafts
- TU-334 - short-haul passenger aircraft
- IL-62M - long-haul passenger aircraft

The world famous “Kazan helicopter plant” produces the copters of Mi8/Mi17 series. The “Kazan helicopter plant” produces aircrafts since 1940-s and exporting since 1956.

High technologies: defense industry complex

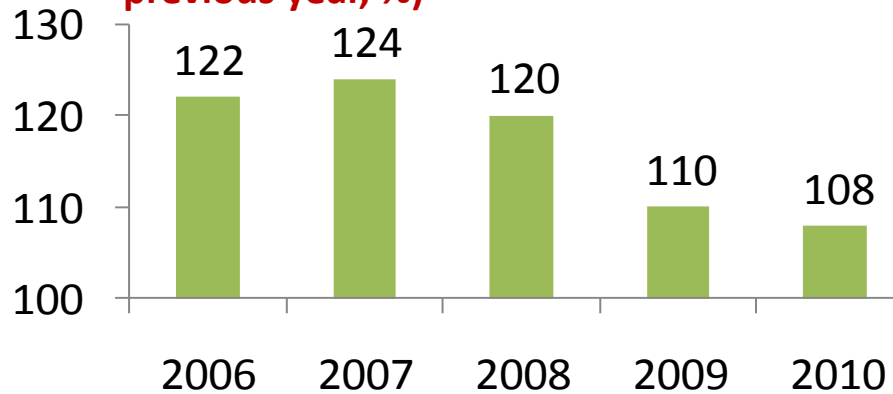

In Tatarstan there are more than 30 large-scaled plants, development laboratories and research institutes, operating in the production of munitions and specialized chemistry, aircraft construction, shipbuilding, management systems and armament

Industrial development of shipbuilding is the priority branch of Tatarstan. «Zelenodolsk factory» manufactures the cruisers for the needs of Russia's Ministry of Defense, various watercrafts, fast-moving small vessels with the capacity up to 100 persons

Energetic complex

Production and distribution of electricity, gas and water (in comparison with the previous year, %)

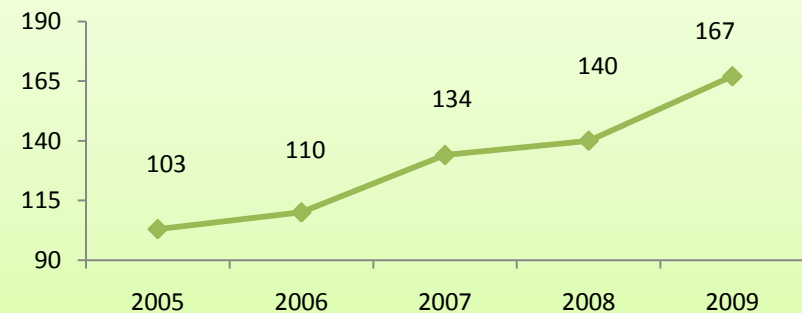

Tatarstan is a region of Russia with independent energetics

In 2010 the Republic of Tatarstan created his Ministry of energetics.

Tatarstan's energy park is a basis of his economy.
Tatarstan consumes about 14 bln. m³ of gas per year.

Rates of growth of electric power supply for production consumers %
