Qualified Labour Force

Slovak labour force is perceived by foreign investors as educated, motivated, adaptable to culturally different management styles with great multilingual competences and very positive attitude to work habits.

LANGUAGE COMPETENCES

80% of Slovaks speak at least one other language than their mother tongue. Multilingualism is praised also among young generation. Students learn at least one foreign language already at primary school and pursue these studies at higher levels.

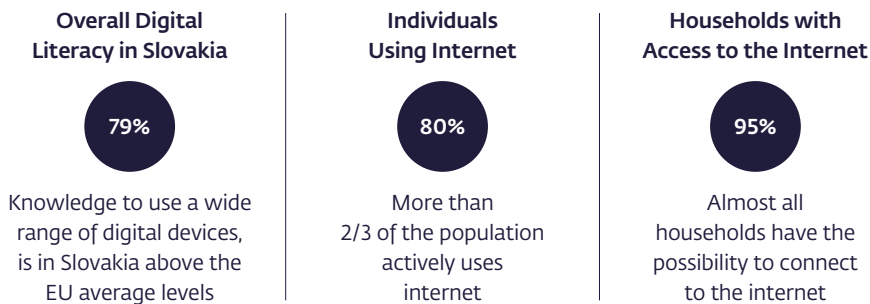

The Most Common Foreign Languages Taught at Slovak Secondary Schools % of all students learning foreign languages

DUAL EDUCATION

As a pioneer in this field, since the academic year 2013/2014 T-Systems implements ICT dual education initiative where students receive 70% of practical education.

Average Gross Monthly Salary

Although salaries in the ICT sector are above the Slovak average, in comparison with the rest of the Western EU countries they remain significantly lower and still competitive CEE region wide.

Differences in salaries occur in Slovakia also on regional level allowing the investors to explore regions outside the main hubs.

Wide range of application — from attendance system to presidential elections

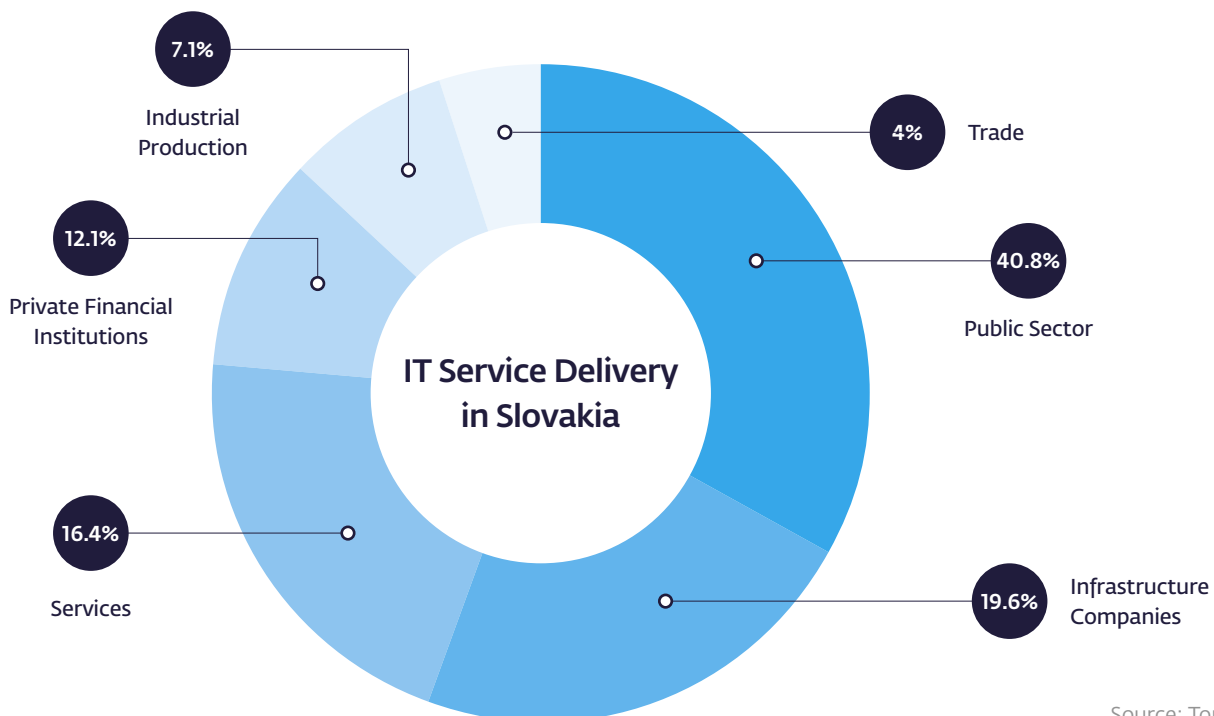

Biometric Software for identity management based on fingerprint and face recognition technology

Inside ICT Market in Slovakia

The majority of IT services in Slovakia are provided by outsourcing centers and software houses. From the prospective of IT customers, the largest share of the segment is represented by the public sector.

DIVERSIFICATION OF TELECOMMUNICATION SEGMENT

Traditional activities of telecommunication operators are gradually expanding beyond mere provision of telecommunication services. Building a diversified portfolio enriched by internet sale or IT services, such as data centers or software houses, is becoming an integrated part of their business.
