ASHiB

About AFYON:

Afyon Yumurta Import, Export, Industry and Trade Inc. is founded by egg producers to join their strength with total 6.000.000 daily egg production. Afyon Yumurta is the biggest egg producer and exporter of Turkey. Our all company partners are egg producers. We do not buy eggs from the domestic market. We process eggs that we acquired from the farms of our partners. Afyon Yumurta is aiming to increase its capacity and control egg production process from farm to factory. Afyon Yumurta is in service with 133 employees on 15.000 m2 of land, including 7.500 m2 of indoor area. Afyon Yumurta is #7 in exporters ranking list of The Aegean Fishery and Animal Products Exporters Association and top egg exporter of Afyonkarahisar province.

About PAKYUREK / MEZZEMARIN:

Long discussions, meeting, planning and a birth of a major brand which would reach out to all corners of Turkey. Foundation of a new brand was laid in the board of directors of Pakyurek A.S.. which is one of the prominent manufacturers of frozen food in Turkey since 1959. The success of mezzeMarin has not been limited to supermarket shelves. Prestigious hotels, restaurants and cafe chains started to create their seafood menus with mezzeMarin products and offer mezzeMarin products to their most distinguished guests. Cooperation through HORECA channel lead to a bigger growth for the brand in the food wholesale industry. Today mezzeMarin observes cold chain principles, does not compromise taste and health and continues its production with its mission to make fish practical and delicious for everyone. mezzeMarin continues to bring tastes of the sea to tables as a strong responsible and innovative brand which works with its motto "Let Turkey eat fish" and understands the needs of the market.

Products: Fish Fillets, Trouts, Seafood Salad, Shrimps
