

2021 Future Healthcare VB100 Conference

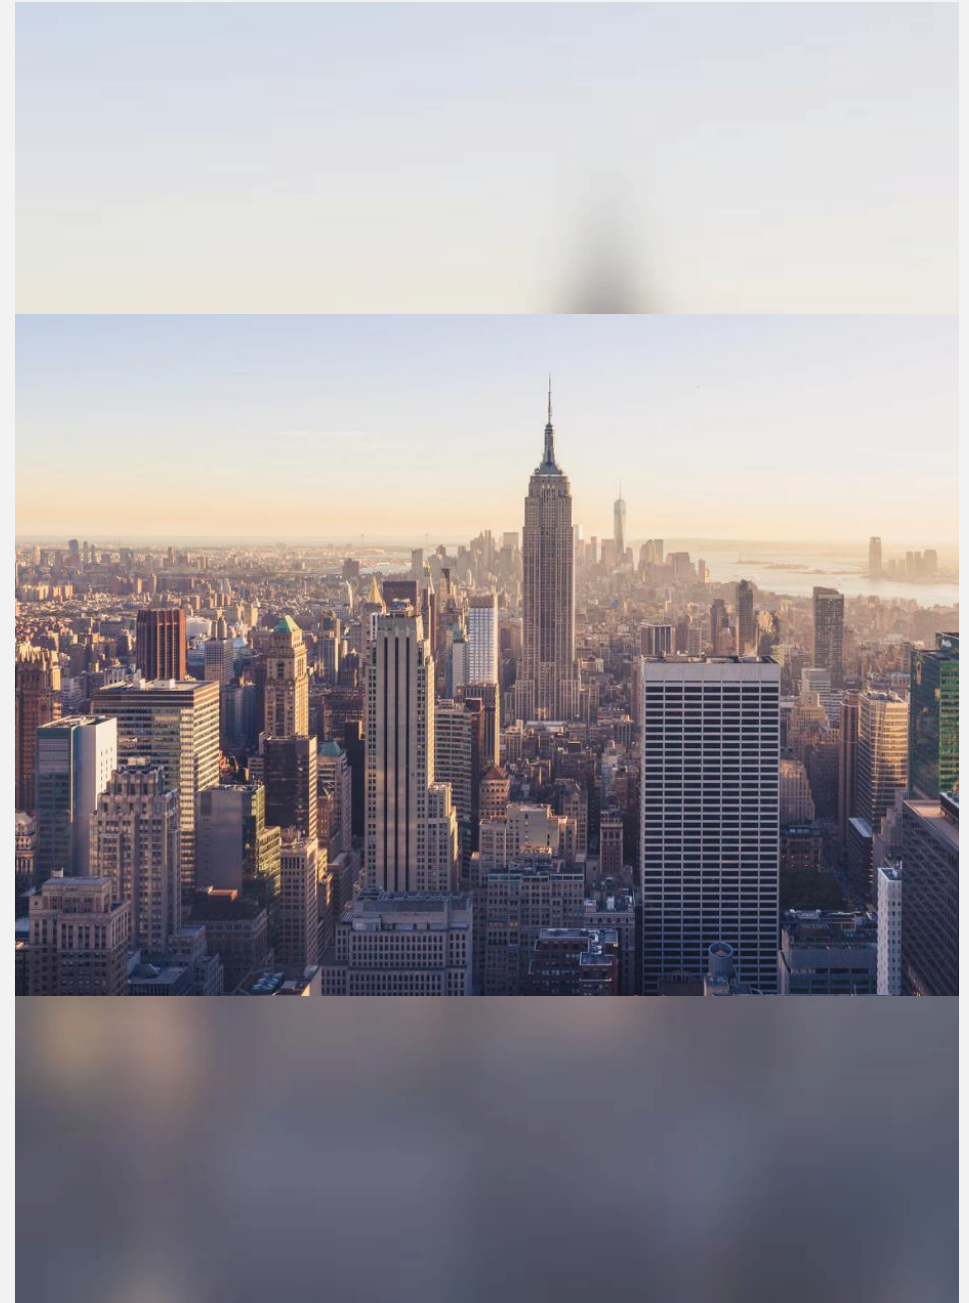

**STRATEGY, INVESTMENT, PARTNERING & COMMERCIALISATION FOR
HEALTHCARE EXECUTIVE LEADERS**

For 5 years, **Future Healthcare VB100 Conference** have been bringing together the executives that matter to the future of healthcare and digital health strategy, investment, partnering and deal making.

The conference takes the announcement of the TOP 100 Future Healthcare Companies List as an opportunity to gather the founders and CEOs of innovative start-ups through to publicly listed healthcare giants, and everyone in between. Additionally, presidents of hospitals and senior investors are attracted to attend the meeting. It represents the breadth and depth of the cutting-edge research and technology driving the advances in the industry both present and future.

Exhibition Area

Future Healthcare VB100 Interactive Activities

2020 – 2021

Dinner

**Private
Meeting**

**Annual Interview
Plan for
Forerunners**

Dinner

Future Healthcare VB100 Awards Dinner

The dinner mainly invites the companies on the Future Healthcare VB100 List to participate, officially releases the list in the fifth session of the conference and presents awards to the companies on the list.

High-end business private dinner Wine party/buffet/table meal

The host can invite partners to conduct in-depth exchanges through the dinner to maintain relationships and promote cooperation.

Dinner with Datao

Mr. Datao, the founder of VCBeat, invites executives of listed companies, founders of unicorn companies, and founders of representative innovative companies, etc., to deeply discuss the latest future medical trends.

Private Meeting

The 5th Future Healthcare VB100 Conference will establish communication channels between government and enterprises and between enterprises through private closed meetings. Through in-depth discussions on the challenges and opportunities in the industry, the meeting will promote the cooperation between government and enterprises and between enterprises to accelerate industrial development.

Government-enterprise exchange meeting

The meeting is a service activity to promote communication, settlement, investment, and other cooperation between government and enterprises, **identified government's strength resources, learning the problems and demands of enterprises, quickly clarifying solutions, and cultivating service activities for the development of emerging industries.** The meeting will invite about 20 government leaders and corporate executives to understand their respective superior resources and needs under the guidance of the host, establish mutual trust between the two parties in a relaxed atmosphere, promote actual cooperation, and help the rapid development of enterprises.

Industry Seminar

The private seminar will invite 10-15 corporate executives to discuss topics in popular subdivided fields, including but not limited to **industry status review, policy supervision, industry problem analysis, potential solutions, upstream and downstream cooperation in the industry chain, and investment cooperation,** etc., to explore industrial opportunities, promote enterprise cooperation and the development of the industry.

Annual Interview Plan for Forerunners

The forerunner must have the keenness to discover opportunities and the courage to innovate.

The forerunner is the first wave of the industrial torrent.

The forerunner is a signpost for all those who follow.

There are always forerunners of the times in every reform, who analyze the general trend of the industry and create the legend of the times with their unique vision. We hope that every year we can invite forerunners to answer questions for later generations and help industry innovators overcome the difficulties and enter a new era of the industry. Therefore, we investigated the annual issues that 600,000 industry innovators are most concerned about and launched the **Annual Interview Plan for Forerunners**.

Research audiences: **founders of representative enterprises** committed to promoting industrial innovation and development, **heads of listed companies** with great influence in the industry, **heads of well-known financial institutions** concerned about the medical industry, **scientists** with excellent insight and achievements, and **officials, scholars,** and **experts** experienced in major policy formulation.

1V1 Video Partnering

VCbeat will provide an online 1v1 video reservation system. Participants can register and log in in advance to obtain an account, and select the intended company or speaker to make a video meeting reservation.

During the conference from April 16th to 18th, the 1V1 video reservation system will be open 24 hours a day, adapting to participants in different time zones. Participants can schedule appointments according to their personal time. Each video time is limited to 30 minutes.

Cooperation Suggestions

1. VCbeat will provide the venue of the forum free of charge, including service personnel for stage screen construction, lighting, sound, photography, video recording, stenography, volunteers and others, as well as the basic materials such as the forum guide board.
2. VCbeat will provide resource support for other communication directions, for example: VCbeat official website publication/VB100 (VCbeat subordinate activity brand) WeChat official account publication.
3. VCbeat will promote the forum in all the external publicity of this meeting.

Cooperation Suggestions

1. The partner will provide support for topic planning, speaker invitation, personnel recruitment and visual design and so on.
2. The partner will arrange at least one person to establish a preparatory group with the organizer to promote the conference project.
3. The partner and VCbeat will jointly invite speakers and panelists.

Previous Cooperative Media

The types of cooperative media have been more diversified over four sessions, covering medical and health media, financial media, and comprehensive news media, with total coverage of over two million.

The image features a central view of the Earth from space, seen through a circular opening in a dark, tiled ceiling. The ceiling tiles are arranged in a radial pattern, creating a strong sense of perspective that draws the eye towards the globe. The entire scene is bathed in a deep blue light, giving it a serene and futuristic feel.

Thanks
