

International Expo & Training on HLS and Defence

6th - 7th March 2023

Venue

The Digipol 2023 will be held at HITEX, Hyderabad, India on 6th and 7th March 2023. The Law Enforcement, Defence and Industry leaders from diverse countries will converge at Digipol 2023 to discuss, deliberate and showcase their expertise, experience and strategies that disrupts the way policing operates today.

The Most Happening HLS and Defence Expo!

Welcome to Digipol

Digipol is a Platform for the Law Enforcement and Defence Agencies around the world, to explore the advancements and innovations in digital security technologies. We bring in the experts from Global Law Enforcement Agencies, Defence Organizations and the Industry to share their real time experience, expertise and actionable knowledge in empowering the security fraternity to foster a safe and secure world.

Our Mission

The Mission of Digipol is to internetwork the law enforcement and defence agencies with right security solutions being delivered by various technology developers from all over the world. As part of the summit we conduct technology sessions to demonstrate the advancements of various top notch intelligence solutions. Keynote speeches from senior officers of the law enforcement, defence agencies and experts from security industry from divergent countries are being invited to share their knowledge and experience in countering security challenges facing the world.

The Summit

The Summit has a unique strategic focus for providing top notch education with practical demonstrations on the most pressing law enforcement topics. The agenda of the conclave is to promote technologies, discuss new innovations, create right ecosystem for the technology absorption and adaptation by the law enforcement and defence agencies.

Why Exhibit?

The Great Indian Opportunity!

Digipol will attract majority of the states, union territories, special agencies and defence forces of the regional sub continent, all under one umbrella. The Expo is the crossroads of intersection for exhibitors, law enforcement and defence officers.

The participation in the Expo is FREE for all exhibitors. A COMPLIMENTARY space of 5 Meters X 3 Meters or 3 Meters X 2 Meters of exhibition space (depending on product portfolio) is offered to the exhibitors at the Expo.

Digipol is conducted at **Hall 2, HITEX Exhibition Center, Hyderabad**. The venue has 37,000 Sft of area and is the biggest exhibition center at Hyderabad.

The primary objective of the Expo is to internetwork various Defence and Law Enforcement agencies with Technology providers. Hence, we invite best of the breed technology developers to explore the opportunity and exhibit the products and solutions. The niche technology domain is also given a **SPEAKER** opportunity to introduce the technology amidst the plethora of officers on the centre stage.

Digipol 2019 successfully delivered business opportunities, network and collaboration between exhibitors and government delegations.

Keynote Speakers

Keynote speakers from International Police Organisations, Senior Officers from Elite Police and Defence Agencies, Security Leaders from Technology Industry are being invited for the Summit to address the August gathering.

Speaking opportunities range from product presentations, panel discussions, workshops and in-depth case studies.

The Summit offers best learning experience with officers from specialised and versatile agencies around the world delivering their experience in bringing together the latest Innovations and leading-edge technologies in enforcing security.

Visiting

Digipol is an integrated event consisting of Conference, Expo and G2B forums. Please visit the website closer to the exhibition for detailed information.

Digipol is exclusively for the Police and Defence personnel only and is not open to the public. Individuals who cannot provide documentation verifying their professional affiliation to the Police or Defence agencies will not qualify to attend.

Visitors from Police and Defence agencies are required to pre register at the website. Exhibitor needs to undergo special vetting process for relevancy of the product for the exhibition. Exhibitors' employees are allowed at the Expo as per the norms of the Expo.

Interconnect with Police and Defence Agencies of the region!

Digipol is a unique opportunity for product vendors to demonstrate products and systems to a wide audience comprising of key figures from the police, defence and decision makers with procurement capability.

Digipol promotes DKonnect, a platform that helps in Interconnecting Police and Defence Agencies with best of the companies developing mission critical and cutting edge solutions.

The platform offers a unique opportunity for police and defence agencies to engage with pre-screened vendors for product evaluation and POCs. Focusing on interoperability between defence and security, DKonnect brings together police and military officials, end users and decision makers from several states and federal agencies, making this an effective platform for rapid business growth and development.

All exhibitors at the Digipol are listed on the DKonnect page where the Police or Defence agencies would like to read or learn about the product portfolio. Most of the time procuring agencies are groping in the dark about competent suppliers and their respective contacts. This platform is a unique platter that helps in networking and interconnecting with the respective buyers who are in search of classified products.

This platform is not just for the exhibitors of the Digipol, other technology suppliers and vendors can also register their products.

The DKonnect web page contains the list of all security product suppliers, however the list is visible to registered Police and Defence Agencies only. The agencies that are interested in checking product portfolio needs to register with their official credentials.

The registration at DKonnect is FREE for all product suppliers. Kindly check www.digipol.org/dkonect.html for registering your product.
