Future Focus Infotech

Sector: Information Technology

Name: Mr. M V Subramanian,
Board Member, SICCI

Designation: Founder & Managing Director

Email: mani@redwoodpartners.in

Profile:

A pioneer in India's IT staffing business, Future Focus Infotech Pvt. Ltd. (FFI) offers Strategic IT consulting and Managed Solutions to Technology companies. Incorporated in 1997, FFI has transformed over the years to become a leader in Consulting for myriad technologies ranging from application development using Open Source, Microsoft, Java and Mainframe technologies to state-of-the-art SMAC technologies. A Software Development Center (SDC) established in 1999 caters to the growing needs of our International clients offering Application Support services and managed solutions in Quality Assurance (QA), Business Intelligence (BI) and Analytics. Primarily to cater to our Indian clients in their overseas projects, we have spread our wings to establish offices in the USA (Focus America Inc) in 2000 and in UAE (Future Focus Infotech FZE) in 2011.

Our subsidiaries, with clear understanding of the local milieu, have now the capability to service the local clients effectively. FFI today operates across 8 major cities in India apart from the overseas operations. The scale of our capabilities, offerings and customer engagements in the IT & ITES domain differentiates us from other companies in the consulting and recruitment vertical. FFI, ISO 9001 certified since 2005, with its focus on quality delivery, has not only been successful in retaining its major clients but also in securing additional business in new geographies. FFI maintains excellent relationship with its consultants too resulting in consistent repeat business over the years.

Dizruptive.AI & Cardiac Wellness Institute

Sector: Health & Information Technology

Name: Mr. Gopinath Koteeswaran,
Board Member, SICCI

Designation: Founder & Co-founder & Partner

Email: gopinath.koteeswaran@gmail.com

Profile:

Mr. Gopi Koteeswaran has a history of leading global companies to positions of strength in geographically diverse markets. He began his career as a brand manager with Johnson & Johnson where he worked for a decade, finally spearheading the company's Vision Care business in India and Malaysia. He then joined Philips at its headquarter in Netherlands, handling M&As and general management responsibilities. In 2010, he was named CEO of Philip's DirectLife, a health and wellness business. More recently, Gopi led the global expansion of LatentView Analytics as its CEO. The company has won numerous accolades that recognized its growth and leadership in digital analytics, including Frost & Sullivan's Analytics Company of the Year and Deloitte Technology Fast 50.

Gopi has a degree in Mechanical Engineering from Indian Institute of Technology, Madras and MBAs from IIM Calcutta and IMD Switzerland. He recently completed the Advanced Management Program (AMP) at Harvard Business School.

He is passionate about running and enjoys training for marathons. When not leading a dynamic team of professionals, you will find him scuba diving in remote locations around the world. Mr. Gopi Koteeswaran also chairs the SICCI Entrepreneurship Innovation and Startup Committee.

Profile:

An engineer (B.E) and MBA by qualification, he has close to a decade of experience in the fields of Real Estate, Construction and Hotels. Dynamic, Lively, Hard Working, a never say no attitude and a sharp eye for detail are five prominent traits to best describe him. He started his entrepreneurial journey at an early age of 22, and with his vision has transformed several areas from barren lands into residential hubs. “Transforming Real Estate into Real Assets “. The latest being Aakam Township.

Fertis India Private Limited

Sector: Food & Agro

Name: Mr. T C Girivasan

Designation: Senior Vice President

Email: tcgirivasan@fertis.com

Profile:

Fertis is a culmination of over a decade and a half of research work on novel materials and molecular formulations aimed at enhancing crop yields, reducing crop losses and producing clean label products under challenging conditions.

Fertis is a fast-growing technology company, focused on research, development and commercialisation of novel crop nutrients, microbes and protectants. It provides customer services that address some of the key agricultural challenges of the 21st Century faced by farmers and commodity purchasers.

The company has several novel and high potential products which are patented. Every product has undergone extensive research. Further, the products are tested on multiple crops at multiple stages at different geographies. The results have been encouraging and have been accepted across progressive farmers and large corporate commodity purchasers as well. The company continues to invest aggressively in new products and service innovations.
