

## COMPANY PRESENTATION

Medicable, created in 2001, is a company specializing in the manufacture and marketing of electrical energy wires and cables.

We cover the needs of the main players in the energy transport economy such as ONEE, as well as the various distributors; installers and manufacturers in Morocco and are developing our international business in European markets; Asia and Africa.

## EXPERTISE

MEDICABLE has recognized know-how in the infrastructure, industry and building markets.

For several years, we have supported our growth by an effort of innovation and research, by cutting-edge technical investments but also by the training and recruitment of adequate human resources essential to the sustainability of our company.

Concerned about its image, each request from our customers requires the mobilization and knowledge of all the skills brought together within the company and ensuring maximum manufacturing quality of our products through a process of control and laboratory testing. rigorous, meeting the specific standards of our business and the highest requirements in terms of performance, quality and the environment.

Our know-how and our mastery of the production of electrical power cables allow us to be present internationally thanks in particular to the advantageous geographical position of Morocco and our ability to provide products and services adapted to the various standards in force. in Europe but also in Africa.

MEDICABLE has been ISO 9001 version 2015 certified since 2005.
